ALL READY FOR CHARITY BALL

FLOOD FUND BENEFIT AT CATHEDRAL HERE TONIGHT

And now for the big time tonight!

For the past two weeks you've been asked to buy tickets for the Charity Ball, you've heard the neighbors talking about it, the ice

man got a little behind in his work talking about it to every one of his customers, but all of the prefactory gestures are over and done, tonight's the night in the Scottish Rite Cathedral for the Charity Ball and Mardi Gras for the Mississippi Flood sufferers.

Of course you're going to be there. New Castle and Lawrence County will be divided into two classes tonight, those who are at the Charity Ball and those who are not. Much of the latter classification will be among the lads and lassies over 90 years of age, but they bought a ticket just to show their spirit in the manner.

Starts at Nine O'clock

The opening bell is at nine o'clock Daylight Savings Time and the revelry will be going on until two o'clock tomorrow morning. There will be dancing of course, but a lot of attractions besides that.

F'r instance, "Du Bell" the World's Wonder Dancing woman. Du Bell is a lissome maid, or at least the police department claims

she is, and she will dance. And how!

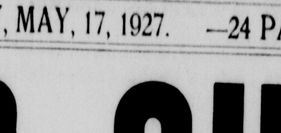

Then Madame Mysteria, the Prophetess who looks into the future, tells you what the price of bacon will be a week from next fall, reveals who your next husband will be, if any and all for a nominal fee. You'll find Madame Mysteria in the tent with the yellow stripes.

Next to Madame Mysteria, ladies and gentlemen will be the counter where can be purchased cakes that melt in your mouth, candies that rival the confections of the Olympian Gods, and all of them sold by Young Women who are not in the Follies because Florenz Ziegfeld never comes to New Castle.

And the Cigarette Girls. Tex Guinan herself never had a more winsome covey of good looking young girls selling cigarettes and cigars than will be on the job tonight.

Be A "Jiner."

In the room just north of the Amusement Parlor will be the Order of the Flood. Everybody will

want to join this mystic order and the Chief Pilot of the Order of the Flood has consented to be present in person to deliver the charge.

Over in the west end of the ballroom the Garden Club will have Zinnia seeds on sale and you really should have a herd of zinnias around the front stoop this summer. What is home without a Zinnia, and what's a zinnia without a home?

Interspersing the dances will be entertainment numbers. William Wray has succeeded in getting a number of aesthetic dancers who will present a number of interpretative creations, the Penn Theatre will have an act up there, Billy Williams and his Tin City Quartette will warble, and the "Where Do You Worka Boys" will do a number in Bar Mill Italian.

For those of you who like an auction, Bill Gardner, "The Pride of Mercer Street," the man who will auction off the Brooklyn Bridge if you want it, will be present and auction off a number or articles of merchandise. Bill's fee ordinarily is a large one, but to-

night his fee stays right in the Flood Fund.

Many tickets have been sold, but there will be tickets of admission at the door. The lunch will be handled by the Service Division of the Scottish Rite Cathedral as will the pop and cigar counter.

It promises to be a lovely affair, oh wurry, wurry lovely. If the whole thing doesn't return $5,000 for the Flood Fund, Mayor William H. Dunlap, general chairman of the evening is going to claim a foul. His idea of a penalty would be about thirty days.

There you have it. Tonight at 9:00 o'clock, in the Scottish Rite Cathedral, and we'll be looking for you. Save me the fourth dance Hortense.

NEARLY THOUSAND JOBS TO GIVE OUT

Governor Returns To Harrisburg Today To Confront Task

By WILLIAM B. BROWN,
International News Service Staff Correspondent

HARRISBURG, (Pa., May 17—Rid at last of the legislative worries which have dogged his footsteps daily since taking office four months ago Governor John S. Fisher will return to Harrisburg today facing an even more unpleasant and trouble resultant task. Within the next two months he is expected to name or approve approximately one thousand.

The majority of major appointments have been made except those which will result from inevitable replacements. It is mainly on those possible replacements thousands of carefully filled out and properly sponsored applications now rest in the office of Personnel Director A. Nevin Detrich.

The governor has four judicial and one public service vacancy which he may fill at once. He is expected to appoint judges in Berks, Philadelphia and Lawrence counties. The vacancy in Chester county for reasons best known to the county leaders there may not be an appointment.

Even without much general dismissal there will be additional places to fill. Practically all of the departments felt they were undermanned under the Pinchot regime and accordingly asked larger appropriations. In most instances

Flood Fund Total Over Twelve Million

Nation Equals Amount Given Japanese At Time Of Earthquake

(International News Service)

WASHINGTON, May 17. — The nation which gave twelve million dollars for the relief of Japanese earthquake sufferers equalled that contribution today for the relief of flood sufferers in the Mississippi Valley.

The Red Cross announced today that $12,133,133 has been collected in the flood relief drive.

Rescue 300 From Perilous Refuge In Southern Flood

(International News Service)

NEW ORLEANS, La., May 17.—Three hundred men and women, some with children in arms, are being rescued by Coast Guardsmen today from limbs of trees and roof tops to which they were driven when the flood waters from the Bayou Des Glaises swept over their refuge on Reeds Hill.

Pierre Gastrand, an alligator hunter brought word to OOelousas that the plight of the refugees at Reeds Hill was desperate, and a fleet of 40 surf boats manned with Coast Guardsmen set out at once for the spot.

Reeds Hill is a highland behind Morrow, in St. Landry parish, and for generations has been the refuge for descendants of the Acadians who settled this country.

BATON ROUGE, La., May 17.—The Melville levee on the Atchafalaya river broke today, according to reports reaching relief headquarters here.

The break will not inundate any new territory, it was said, but will hasten the movement of the flood waters toward the gulf.

Melville was being evacuated today.

City Expansion Drive Near Goal

Workers Enthusiastic For Successful Conclusion On Wednesday

PASS $25,000 MARK AT NOON GATHERING

Somebody must have slipped a little ether into the gas tank of the New Castle Expansion movement motor today at noon. Or perhaps the brakes of hesitancy were taken off, or the carbon of criticism was cleaned out of the valves. Whatever it was, the noon meeting of the Expansion Movement today at noon in the First Christian church had a sweep and a dash that it hasn't had since the campaign opened.

In memberships the number went to 27, and the budget total, $1-675.00, bringing the total of the budget to $25,467.00. The quota is set for $30,000.00, and with the impetus of today's meeting back of the workers its a good guess that the old $30,000.00 mark will get a run for its money by tomorrow at noon when the campaign ends.

Impromptu Speakers

There was no set speaker today. Nobody had time to get set for Chairman James K. Love called them out as fast as a stock broker's clerk marking up the rise in Toothpick Common or Ocean Breeze Preferred. The president of the Chamber of Commerce, Fred L. Rentz, went to bat first and was followed

Army Defenders Of New England Coastline In Effort To Locate Invaders

By KENNETH CLARK
International News Service Staff Correspondent

ON BOARD U. S. S. SEATTLE, AT SEA, May 17.—(By radio to I. N. S.)—A mighty enemy fleet was concentrated for battle off the New England coast today, screened by swift-moving scout craft.

The fleet spread out over an area of 200 square miles and was seeking an opening to land a "hostile" force of 75,000 troops at some unguarded coastal point.

If the "attack" is successful the "enemy" will have a base from which to move either on New York or the rich industrial sections of New England.

The "enemy" is the United States fleet, which is engaged in spring tactical maneuvers with the army, which has been assigned to defend the coast.

Gigantic Armada

Never before in peace time has such an armada assembled off the American shore. As the "zero hour" approaches the fleet is simulating actual war conditions.

Board Names Ligo To New Position

Selected As Superintendent Of School Grounds And Buildings

At the special meeting of the New Castle School Board held Monday evening, May 16, Garf Ligo, head janitor of the Benjamin Franklin Junior High School, was elected superintendent of buildings and grounds at a salary of $2,500.-00 per year. His term will start July 1.

The election of Mr. Ligo as superintendent of buildings and grounds comes after an investigation by the board lasting over a period of some months. It has been felt that an experienced man in general charge of the buildings and property of the system would mean a savings much larger than the salary paid him, and would relieve the secretary of the board of some of the detail concerning repairs to various buildings.

Mr. Ligo has been in the school system for some years, and has had charge of the plant and equipment at Franklin since the building was erected.

Now Just A Minute!

That old comic song "Naming The Baby" has a counterpart in New Castle at the present time, the new title being "Naming The Elephant."

Housewives have laid down their dust mops, bookkeepers have laid down their pens, and plumbers have laid down their stilson wrenches in an endeavor to name the elephant which Jiggs and Maggie have had wished on them in China.

On the editor's desk of the News is a large pile of envelopes to be forwarded to George McManus, all of them containing suggestions for the name of the pachyderm which Jiggs is finding so hard to name. And all over the country the same story is being repeated.

But—just a minute. What kind of an elephant is' it? Should its name be Hortense or Ambrose? Is it a girl elephant or a boy elephant, and how are we to know? These queries came into The News office last night.

The editor doesn't know the sex of the brute. All the experience he ever had with elephants was carrying water to them thirty years ago, and he had to confess to a reader that he didn't know what sort of an elephant Jiggs had given to him.

Maybe it should be Henry, or maybe Henrietta, Paul, or Paulina, or Victor or Victrola. Write your own ticket and send in your suggestion for a name for the elephant which is causing Jiggs and Maggie so much grief.

Says Muny Farm Is Not Suitable As Landing Field

The municipal farm would not be suitable for a landing field for airplanes, according to Rex Patch, who is chairman of the committee looking into the affair.

Mr. Patch says that they went over the location with an aviator, Lieutenant Clark, who stated that there was not a large enough level piece of property on the county farm to make a suitable landing field.

But Mr. Patch said that he, with George Weingartner and Ira Ramsey had been looking over several other places that would be suitable and not too far from the city. One spot on the Harlansburg road seems like an ideal location.

The difficulty in securing a landing field would be the acquiring of funds for the purchase of sufficient property, says Mr. Patch.

But as there has been considerable talk of securing such a field, it is hoped that funds will be forthcoming.

First Step On Bridge Plan

Ordinance Introduced Into Council To Widen Lawrence Street

BELIEVE MOVE "TRAFFIC AID"

The first step toward the construction of a bridge, across the Neshannock river, from a point near South Mercer an South Mill street, was seen today in the introduction of an ordinance before council in formal session. The bill provides for the opening and widening of Lawrence street in the vicinity of South Mercer street.

According to Solicitor White the court recently took no action on a request for a bridge cause Lawrence street had not been opened. In order to fight for a bridge the city has decided to open and widen Lawrence street and if the bridge is built it will help to carry traffic east via Grove street.

The bill presented today as in blank form, only the caption being written on the measure. Council will have a conference with the city engineer and Solicitor White while the bill is in committee and decide what is to be written into the measure. It is planned to open and widen the street this summer.

Bellanca Plane May Not Attempt Atlantic Flight

New Dissension Arises Today That May Cause Bellanca Plane To Be Withdrawn

MAY RESORT TO COURT ACTION

Flyers Split Over Many Phases Of Proposed Flight To Paris

(International News Service)

MITCHEL FIELD, New York, May 17.—The Bellanca plane Columbia may be definitely out of the race to Paris because of new dissension which rose to alarming proportions today.

G. W. Nutt, attorney for Lloyd Bertaud who with Clarence W. Chamberlin was to fly the Bellanca plane in the epochal air race, has advised his client not to sign the new contract offered by Charles A. Levine, president of the Columbia Aircraft Corporations. The document was expected to adjust all former difficulties.

Today it appeared likely that court action would be restored to straighten out the differences between their backers and the fliers.

Because of what he calls a "trick" clause inserted in the flight contract, Nutt is said to be ready to seek damages from Levine and was reported ready to ask an injunction to restrain the plane from leaving.

Hold Conference

A conference of flying men and officials was to be held today at the office of Rodman Wanamaker. Just what will transpire at the meeting is problematical. There was no intimation that it might have to do with the New York-Paris flight.

When it became apparent to Bertaud's friends that the flight was threatened, a group of them hastened to offer Levine $25,000 for the Mellanca plane, and announced they were prepared to back the airmen. The offer was turned down by Levine.

Twenty Six Counties To Send Delegates Here On Thursday

Some 100 cities and towns and 26 counties will be represented at the May convention of the Western Pennsylvania Retail Druggists Association that will be held at the Scottish Rite Cathedral on Thursday, May 19, according to the committee that is arranging the entertainment of the delegates.

Music for the evening will be furnished by the Castle Singers, a male quartet of local men who are making quite a reputation for themselves.

A feature of the convention that is rather unusual in conventions is the planning of the wives of local druggists for the entertainment of women among the guests. Mrs. J. Myron Rice, chairman of the committee, says that for Thursday afternoon autos have been obtained to take the guests for a tour of the town. Plans are being made to visit several of the industries and places of interest while the men are having their committee and business meetings.

After the banquet in the evening a bridge party or theater party is being planned for the wives of visiting druggists that do not care to attend the program of speeches in the auditorium.

The women's committee consists of Mrs. J. Myron Rice, chairman; Mrs. Reed Megown, transportation; Mrs. Carl Paisley, decorations; Mrs. John Haley and Mrs. Ed. Dutf, committee of arrangements at the Cathedral. All the local women are acting on the reception committee.

Fear Many Dead In Flood When Levee Gives Way

By LAWRENCE SULLIVAN,
International News Service Staff Correspondent

BATON ROUGE, La., May 17.—Great loss of life was feared today when the levee at Melville, 45 miles north of here, crumbled while most of the town was asleep, sending a wall of water 30 feet high and 500 feet wide rushing in upon more than 600 people.

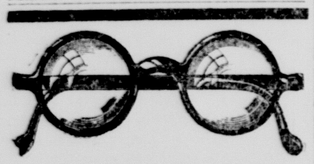

John A. Parker, relief director for Louisiana, said that while most of the women and children had left the town, there were at least 600 who had refused to leave and that it was unlikely that all of these had escaped the sudden rush of the pent-up waters.

Relief headquarters here had no direct word from Melville, regarding the loss of life, if any. A wireless boat was dispatched there at once to ascertain the casualties.

MANY PLACES TO BE FILLED BY GOVERNOR

(Continued From Page One)

these were granted. That will permit the addition of more workers from time to time.

By June 13 some 300 trustees of state owned instiutions will be automatically removed by provisions of amendments to the administrative code. None of the positions pay salaries but they are much sought after. Preparation of such appointments always is given considerable care and thought. In some instances they have considerable political significance and accordingly must be distributed carefully.

In addition to those places the governor has before him replacements on the various boards attached to divisions of the state government. Then too the legislature was unusually free with bills "creating a commission and making appropriation." Practically all such places are filled by executive appointment.

During the session of the legislature the governor's office had plenty of good excuses for shunting from the executive the hords of place hunters which almost daily lined the outer offices. Those for the minor places were short circuited to the office of the personnel director. Seekers for the more important places were told frankly that the governor was devoting all of his time to study of legislation, and had no opportunity to think of appointments.

Now however the governor must devote his time to appointments almost as thoroughly as he had been giving it to legislation. Most governors realize early in their terms that one appointment can make ten times as many enemies as it does friends. Accordingly the governor is expected to devote considerable time to the long list of names which will pass before him in the coming months.

His neighbor in the cell next is Charles J. Doran, of Albany, N. Y., who is under sentence to die in the electric chair in the week of June 13 for murder.

But Doran will not actually die at that time for his execution will be delayed by an appeal, just as the executions of Mrs. Snyder and Gray, one week later, probably will be delayed for the same reason.

The first Mississippi river levee was built by the French in New Orleans just two hundred years ago.

Town Talk

This is the night—Charity Ball at the cathedral.

New Castle police certainly can put a thing over when they take hold. The way the blue-coats have been selling tickets for the flood sufferers ball game and for the charity ball tonight spells success for the fund.

In some cities there is complaint that auto tourists are taking too much time of traffic officers asking for information. We have heard no complaint of this nature in New Castle. In fact, New Castle officers stationed down town are accustomed to answering all kinds of questions asked by travelers in town, and one officer recently suggested that the city station a man on the public square in an information booth. Not a bad idea at that. It would help advertise the city.

Hey! Chamber of Commerce! There will be one thousand or more Western Pennsylvania visitors in New Castle Thursday for the druggists conference. Doing anything to take advantage of this fact to advertise New Castle? Tell them about our city!

Contracts awarded by the city council on Monday for street improvements are about the largest contracts of the kind awarded in some years. Two of the improvements, the North Mercer street and the Delaware avenue paving, will make two excellent thoroughfares on the north hill, while the paving on the avenues leading to the New Castle hospital are steps that will make most noticeable improvements in that locality.

New Castle auto drivers apparently need to be taught a lesson about flocking to fires. Every time there is an alarm, a large number of autoists flock to the scene, some in the wake of the firemen and some even before. As a result congestion is soon evident in all directions from the scene of the fire, and if additional fire companies are needed they can hardly reach the fire.

Resurfacing of the stretch of North Mercer street between North and Falls streets, or even up to Grant street, should be included in the plan for the summer. With the completion of The Castleton this fall it is to be desired that the main approach to the hotel be one that is commendable.

by a number of short speakers, that is the speeches were short, not the person making them. And while the speeches were short in length, they were long on enthusiasm.

At the meeting today were about one hundred new members of the Chamber of Commerce. A number of them were called upon and at the close of the meeting each one was asked to get another member by tomorrow noon.

The Wednesday luncheon will be the last of the campaign. Positively. The returns tomorrow at noon will write finis after this campaign and by all indications it is going to be written in letters a foot high.

Some of the larger contributions to the budget fund today follow:—New Castle Mining and Clay Products Co., $100. Bright Auto Bumper Company, $50.00. John, James and Rachael Wallace, $200.00. Treadwell News Company, $125.00. Lawrence Bottling Company, $350.

Snappy Saying

Chicago can justly say it doesn't have all the big murder trials. Only a few are caught there.

DINNER STORIES

Snappy Retort

A professor, coming to one of his classes a little late, found a most uncomplimentary caricature of himself drawn on the board. Turning to the student nearest him, he angrily inquired:

"Do you know who is responsible for that atrocity?"

"No sir, I don't," replied the student, "but I strongly suspect his parents."

The Alternative

Bill had been having trouble with one of the native crew on his sail yacht.

"Damn it all, Yarrie," he said, "do you want to loaf all the time?"

"No, boss I want sleep sometimes," was the reply.

He Learned This at College

A college student arose from his table in a fashionable dining room and walked toward the door.

He was passing the house detective at the entrance when a silver sugarbowl dropped from his bulging coat.

The guest glanced calmly at the officer, then turned with an expression of polite annoyance toward the occupants of the room. "Ruffins!" he said. "Who threw that!" and walked out.

another damper on the other contemplated hop-offs. Captain Chas. A. Lindbergh, the "Flyin' Fool," was prevented from starting from Roosevelt Field. He has been given a final physical examination, and has been declared 100 per cent fit.

Not only were Bertaud and Chamberlin at odds with Levine, their backer, and G. Bellanca, designer of the ship, but they were in disagreement with each other also.

Fliers Split

The matter of carrying radio equipment split the fliers. Levine ordered the radio equipment taken off the plane. His action was supported by Bellanca and Chamberlin, but opposed by Bertaud. The radio was taken off.

Bertaud would not make a statement concerning the matter, but observers reported him to be "angry" and "extremely wrought up."

Differences over the proposed route of the plane caused additional discussion. Bertaud has insisted upon a direct route by water, while Chamberlin has sought a rout via Newfoundland and Ireland, chopping off much of the water route sought by Bertaud. It was said that the fliers are almost hopelessly divided on this point.

It was learned that the verbal contract, supposed to clear up the matters of insurance provisions for the fliers' wives, division of awards and other money earned, had not been put in writing, as had been expected after Sunday's conference.

There was a feeling today that Commander Byrd, who is to fly the America with Bert Acosta, would beat his competitors in the start, because his 'plane would be better able to breast the head winds.

The planes, which are the "eyes" of the fleet, take off from the flat top decks of the Langley to scan the bounding waters for the ships of the defending forces.

Every man is at his station waiting for the order to "attack" to be be given by Admiral Charles F. Hughes, commander-in-chief. He is directing the maneuvers from the flagship Seattle.

Since one minute after midnight today the "enemy" has been cut off from the outside world. During the night it moved with lights dimmed. The radio was silenced for fear it might reveal the location of the fleet to the defenders.

The "attack" is expected to be made by Friday.

Enemy Approaches

By JAMES L. KILGALLEN
International News Service Staff Correspondent

CAMP ADAMS, NEWPORT, R. I. May 17.—In grim earnestness, as if it were a real war, the defenders of the Narragansett Bay and surrounding territory today were engaged in a mighty effort to locate the "enemy" fleet that is bearing down upon the coast of New England for the purpose of landing a theoretical force of 75,000 men, threatening this great industrial region and possibly opening a way for an attack upon New York City.

In State of Siege

Narragansett Bay was virtually in a state of siege. It had become the focal point of defense for southern New England, the ports of Boston, Providence, New London and New York City.

All lights were out last night at the fort as a precautionary measure. Throughout the night radio receiving sets buzzed with messages. The atmosphere was charged with expectancy and important developments were reported as imminent.

Major General Preston, in his headquarters at Fort Adams, two miles from Newport, was directing the operations of the defense forces. He was assisted by Admiral Irwin's small but quickly mobile scouting fleet.

Aircraft, anti-aircraft guns, radio, searchlights and secret signaling and directing devices were also being brought into play.

Five divisions of troops were moved to strategic points ready to repel an invasion should the invaders outwit the scouting fleet and effect a surprise landing.

General Preston, in his first talk to the press, outlined the salient points of the "war". He said:

"The main object of this maneuver is to effect co-ordination between the army and the navy. It is not a matter of relative strength of the blue and black forces, but rather an exercise to enable both sides to obtain valuable training under conditions simulating actual warfare.

The pallbearers were members of her Bible class of the United Presbyterian Sunday school.

Miss Hertzog was one of the best known young women of Elwood City and was held in high esteem by her school mates and associates.

Flood Fund Is Now Over $7,000

At noon today the Flood Relief fund being raised by the Lawrence County chapter of the American Red Cross was near $7000.00, a number of contributions of size coming in today.

The Highland United Presbyterian church turned in $257.50 as the result of the Flood contribution made Sunday, the Evangelical church $20.00, St. Paul's Lutheran church $77.00, St. Philips and James church $40.00, Young Men's Bible class of the First M. E. church, $5.00, St. Andrews church $18.00, American Legion $25.00.

The largest contribution of the day was from Miss May Hoyt and Frank Hoyt, a check for $300.00 being received.

Some people are so little amusing that they could not entertain a doubt.

What the world needs today is fewer cranks and more self-starters.

REPORT MARINE CAPTAIN KILLED IN NICARAGUA

(Continued From Page One)

issued largely for home consumption. Dr. Sacasa's followers in the field have surrendered generally.

WASHINGTON, May 17.—A dispatch to the navy today from Rear Admiral Julian L. Latimer confirmed the killing of two U. S. Marines and the wounding of two others in a clash with Nicaraguan Guerillas at La Paz Centro.

The dead are Capt. Richard Buchanan of Washington, and Private Martin Jackson, of Jacksonville, Fla., the wounded, Private Wm. F. Simon and Corp. A. J. Rausch.

Two hundred Guerillas attacked the Marine encampment, the dispatch said, and a dozen of the attackers were killed when the Marines returned the fire.

Capt. Buchanan joined the Marines in 1917, after graduating from the University of Illinois. His mother, Mrs. G. B. Buchanan, lives near Plainfield, N. J., a wife and three children survive in Washington.

The Meuse-Argonne cemetery at Romagne-sous-Montfaucon, the largest of American cemeteries for war dead in France, contains 14,107 graves.

SPEEDY JUSTICE

THERE is one phase of the Snyder-Gray murder case universally gratifying, not excluding those irreconcilably opposed to capital punishment. It is the expedition with which it was brought to trial and with which the trial was prosecuted.

It there is, as there must be, a deterrent effect upon those inclined to crime in the spectacle of speedy arraignment and condign punishment, the country has had the benefit of it in this case.

A large part of the credit for the swift and satisfactory conclusion of the trial must go to the presiding judge. He showed from the first that he was determined to keep a firm hand on the proceedings, speeding selection of the jury, preventing time-wasting disputes between counsel, disposing of technical points as they arose and ruling out irrelevant, incompetent and immaterial testimony.

But praise should also be given the prosecuting officials. In little more than a month after the commission of the brutal crime the two accused slayers were on trial. In less than two months they stood convicted to die in the electric chair during the first week of the fourth month after the murder.

While appeals may delay the execution for many months or may even win a commutation of sentence for one or both of the condemned, the result already reached is most wholesome and gratifying. It proves the trouble is not with the American criminal court system but with those charged with its administration.

GOVERNMENT AND BUSINESS

ANNOUNCEMENT that government control and ownership of public utilities and commercial enterprises are to be abolished in the Philippines was a jolt to advocates of government ownership and control here as well as in the Philippines.

The government's interests in the Manila railroad have been disposed of and the Cebu Portland Cement company and National Coal company are among the other large enterprises from which the government is soon to withdraw as part owner.

Governor General Wood is quoted as expressing the belief that the economic atmosphere of the island will be materially cleared by the new policy and that there will be a revival of business, which in turn will offset the millions of loses sustained through governmental operation and ownership of railroads and manufacturing enterprises.

Abandonment of government control of business in the Philippines brings to an end another attempt on the part of federal authority to engage in commerce, which is—and should be by right—the function of private individuals and corporations.

Where government control or ownership does not bring about an improvement in service and economics, but works to the contrary, it is folly to retain it. The Filipinos discovered that their greatest need was private initiative and are inviting it by taking the government out of business.

The American people had a bitter taste of government operation of railroads. They quickly rid themselves of that yoke, but not before they had learned a lasting lesson. No doubt some of the present sentiment against warranted government interference with private business can be traced back to the period of government management of railroads.

UNREASONABLE

PARADOXICAL as it may seem, it is a fact that man, the only animal endowed with the gift of pure reason, is the most unreasoning of all creatures. And one can demonstrate the truth of the assertion without resort to abstractions of logic and scientific formulas of psychology and physiology.

Highway history reflects this innate unreasonableness in man. The motorist of today raises a greater hue and cry over little inconveniences consequent to highway improvements than the motorist of yesterday raised over the almost total absence of roads suitable for motor traffic. A short detour, representative of what all roads once were, a stretch of oil, some chipped concrete and wavy macadam are the cause of more fretting than mud and dust were in the old days.

It must seem to highway officials, who are constantly deluged with complaints, that the public is unwilling to suffer the smallest inconvenience of discomfort to have great inconveniences abolished. The public will complain about the condition of the main road and then complain even more violently because of a detour while the main road is being improved.

Another way in which this unreasonableness manifests itself is the impatience shown by the average motorist halted by a traffic signal or traffic regulation. He has forgotten the day when most roads were one-way roads blocked by hay wagons moving at a snail's pace and broken by "bottomless" mud holes.

However, these may be healthful signs. Man is forever striving after perfection and is ever impatient of imperfection.

It will soon be time to start liking winter better than summer.

Many a young daughter resembles her mother because they dress alike.

Wouldn't it be great if you could send the dishes to the laundry and the house to the cleaner?

If a child is naturally left-handed he should be permitted to remain so, says a doctor. Then he may become a baseball pitcher.

Hints and Dints

Sun sets tonight 7:11. Sun rises tomorrow 4:41.

Your property would be worth very little in New Castle if the Chamber of Commerce were to cease to exist. No city can get along without a Chamber of Commerce. The least you can do if you have property that brings an income or own your own home is to belong to the Chamber. You cannot get as much protection anywhere for $25 a year.

A lady in New Jersey was given 35 years in prison for shooting her husband and confessing that she had been guilty of advocating taking his life in two attempts to poison him. She has killed all the husbands she will ever kill, which is some satisfaction.

The grand jury at Greensburg, Pa., criticised the court for being too lenient with liquor law violators. It isn't often a grand jury hands the judge a rap, even if he does need it.

Gov. Fisher put just 494 new laws on the statute books of Pennsylvania by putting his signature on them. He also vetoed 177 attempts of the legislature to make that many more laws. Taking it all in all the governor took pretty good care of the state when it came to signing new laws.

Love is the quality that makes dish washing at nothing a week seem more attractive than typerwriting at $35.

So far the attempt to get enough money to take care of the needs and projects of the New Castle Chamber of Commerce has failed. A last effort is being made. This would be easy if all who should would help if only by taking a membership. Many who make scads of money in New Castle have refused to help. In the south and west it goes hard with those who are in business and have incomes who do not belong to the chamber of commerce. That's why cities like these are successful.

No one wants to get married on Friday, the 13th, it seems. Those who get married evidently think they are taking chances enough without doing it on an alleged hoodoo day.

We think the term "hot horse" would be more appropriate than "hot dog"

An old lady out west attributes her age of 97 years to the fact that she has always eaten the things that tasted good to her. That may have been alright in her case but there are millions who are in their graves at an early age for doing that very same thing. The doctors never advise anyone to eat the things that taste good to them.

A Berlin doctor advises those afflicted with nervous troubles to spend their week ends by taking balloon trips. Many will keep on suffering from their nervous troubles rather than get them worse by doing any such hifalutin stunts.

A man named Hell was arrested for operating a beer factory in Cleveland. He is going to get even more of that than he is named for before he gets through with the case.

Silence is a wonderful thing. Undoubtly it will keep you out of trouble. It will make people think you are either very dumb or very wise. If you are silent when your wife is giving you fits, it only makes her madder. Really their are times when silence is best and other times when it is proper to turn loose with the big noise. The trouble lies in the inability of most folks to know just what to do at the right time. As for myself, I am never silent. I have to be full of gas to hold down this job.

INTRODUCING HEMIGAMY.

A new state of marriage seems to have arisen in the Twentieth Century. Since the beginning of prehistoric man there has been various stages, including polygamy and monogamy. Now we have hemigamy—or a state where a woman is half married to her husband and half married to her job.

At any rate, nobody accuses me of being lazy. I may not be cary clever, but the little ole column is always here.

A Sheep Hill man is supporting a wife, a mother-in-law, four children, six poor relations and an automobile. Oh yes, and a collie dog and a tomcat. And yesterday he told me that he had never run into debt one cent. Gee, that guy must have a whale of a salary.

Dear Sir: When I was a boy, dad always used to say grace before meals. It was a fine old custom. No man nowadays can feel really thankful for a meal when it is to be served from a tin can.

WORTH THE MONEY

I know a man of modest mien,
Who never went to school or college,
But sails along through life serene,
Tho' boasting neither wit nor knowledge,
While college men at meager pay
Bewail their fate and cuss their luck,
This guy gets forty bones a day
For knowing how to pass the buck.

It is reported that opera boxes are going out of style in London It looks as if royalty has stopped going to the opera just to be seen.

An automobile confiscated by the police at Washington, D. C., was sold for twenty-five cents when put up at auction. The wind in the tires of an automobile should be worth more than that.

If the defendants in court could hear some of the whispered remarks passed by the court attendants they wouldn't take life so seriously.

It is easy enough to fall into debt. It is the climbing out that often proves difficult.

Every so often we meet up with a fellow who flays his home town, forgetting that trains, buses street cars operate out of it daily; also forgetting that the town wouldn't miss him. And the highways are good for walking if that is the only thing there is left for these yaps.

In honor of the Kentucky entry "Rolled Stockings" in the great derby race last Saturday, maidens from Kentucky rolled their stockings to show their loyalty to their state and horse. But "Rolled Stocking" was lost at the finish, but rolling your own is still popular down around Louisville as elsewhere

Nine members of the council of Homestead have been found guilty of crimes relative to selling liquor. That is the difficulty of the present day efforts to enforce the law. In many places the officers are in cohoots with the law breakers. Here however we have been free from anything of that kind and law enforcement is done very respectably.

Our Funny War Game.
$1,000,000 Airplane
Eastman-Rockefeller.
They're Good Soldiers.

By ARTHUR BRISBANE
(Copyright, 1927, By N. Y. American, Inc.

Monday our great "defense" organizations will begin a war game. The army will be mobilized to "repel an enemy fleet" and our army heroes are "rushing reinforcements, bolstering coast defenses," etc. The humor of the thing would vanish if we had real war.

* * *

In that case, enemy flyers, released from airplane carries, off shore, beyond reach of our coast defense pop-guns, would fly over New York, or San Francisco or Los Angeles, bombing and gassing those cities on the way inland to deal with other cities, then fly across the Canadian or Mexican border and settle down comfortably, to be interned for the duration of the war. It would not be much of a duration.

* * *

There will be no attack on this country until some nation is ready to attack by air. If such an attack finds us unprepared, as we are now, it will be a nice, short war.

* * *

At Dearborn last Wednesday Henry Ford, talking about flying machines, said, "Some one ought to build a flying machine of size and power, and make a real experiment. It should be independent of wind and storms, as an ocean liner is independent of ocean waves. Such a flying machine would have many engines with superflous power, so that if one or two broke down, it would make no difference. They could be repaired by mechanics on board while the machine continued its journey."

* * *

Such a machine, made as an experiment, would cost about one million dollars, Ford said. Asked if he planned to build it, he replied, "Edsel and I have talked about it, but have other things to attend to now."

Eight hundred thousand dollars, given by Henry and Edsel Ford last week toward the Woman's building in Detroit, would almost build the big flyer. Such a machine might be more useful to the world than even the finest woman's building.

* * *

Before Gen. Mitchell was put out of army flying, for telling unpleasant truths, he had under way plans for a giant flyer, with wheels twenty feet high, that could take a running start over fences and tree trunks.

* * *

Professor Rumpler, head of a German airplane company, has announced plans for a plane, many times the size of any ever built, to carry many engines, and cross the Atlantic in sixteen hours, carrying 170 passengers.

Transatlantic flight will soon be commonplace, but the little machine must show the way, as did Columbus' little boats.

Some Americans prove friendship for Britain in substantial ways. George Eastman, of Rochester, for whom you "push the button," has given $1,500,000 to establish a dental clinic in London. Efficiency depends on health, health on digestion, digestion on the teeth.

That $1,500,000 will be worth many hundreds of millions to Great Britain, also comfort for British old age.

Wonderful are those modern soldiers, dollars, that do not eat, wear clothes, pay rent or charge wages, and always obey orders. The Rockefellers have these soldiers working all over the world, building hospitals in China, fighting yellow fever in its birthplace, maintaining in New York the greatest institute for the scientific studying and fighting of disease.

TO APPRECIATE—

Money it is necessary to earn some.
A home one must live in a boarding house for a while.
One's own country one must travel abroad.
Health, one must spend a week in a hospital.
Your friends, spend a week among strangers who do not care about you.
Your own troubles, try sharing some one else's.
God, try to fancy a universe without Him.

Bible Thought For Today

THE PERFECT WAY:—As for God, his way is perfect; the word of the Lord is tried: he is a buckler to all those that trust in him. For who is God save the Lord? or who is a rock save our God? It is God that girdeth me with strength, and maketh my way perfect. Psalm 18:30-32.

PRAYER.—May we Lord, strive to be perfect even as Thou art perfect.

THE EVOLUTION OF RELIGION

Dr. Robert A. Millikan, world-famous scientist, in an address the other day on the subject of evolution, declared that religion was one of the most striking examples of evolution. This was not in the way of controversy or heresy, but was merely emphasizing what was already taught in every important theological school of importance in the United States.

Scholars have been pointing out that there was a progression of doctrine in the Bible, the God of the Old Testament not having the ideals presented in the new.

There is no doubt but that religion has advanced greatly from the days of Moses until the days of Christ.

Christ Jesus is said to have come "in the fullness of time"; that is, he came when the development of

THE MAD GENIUS

How strangely man is made. One sees
The diamond gift for melodies
Beclouded with a madness grim
That sets the throng to jeer at him.

One, with the magic touch of art,
In solitude and drawn apart
From all the world's temptations, gives
Us loveliness which breathes and lives.

Yet habits of the baser sort
Make him their victim and their sport,
And when he walks about he finds
No strength to cope with coarser minds.

Enslaved by hungers and desires,
Consumed by strange, relentless fires,
The weakest mortal in the town
His pride can quickly batter down.

How like the blossoming of a rose
Which must have met uncounted foes,
Of slug and worm, disease and storm,
Before that lovely bud could form!

And then at last with blooming done
The plant stands withered in the sun.
So dies the genius, poor and pale,
A giant soul whose flesh was frail.

The World AND THE Mud Puddles

MEAT FOR THE NATION

Every family, every hotel, restaurant and every place where food is served is dependent upon the grower of livestock for the daily supply of pork, mutton and beef. They are likewise dependent upon the American railways.

A New Castleite does not have to be very old to remember the time when all the beef, pork and mutton that he ate was slaughtered within the confines of Lawrence County. The butchers of the city and of the villages in the county either killed and dressed their own meats, or bought their supply from a neighbor butcher, who did, or from a farmer who made a business of growing stock, killing and dressing it himself.

All this has been changed. There are a few farmers who kill and dress for themselves and their friends, but very few butchers outside of those of the Jewish faith, who still sell any meats whatsoever, except those bought from the representatives of the great packing houses. This great change in distribution of products has made it necessary for the railroads to organize within their systems great departments of livestock transportation.

The transportation service rendered by the railroads affords a much greater and more diversified market for livestock and the development of the modern packing house insures careful inspection and a much more economical and sanitary method for the slaughter and preparation of the products of livestock for food purposes. Livestock, being easily injured, must be handled with care, and to secure advantageous markets must be moved with dispatch and without delay in transit. The average carload is about ten and a half tons, as compared with thirty tons for other carload freight, the livestock carloading of revenue producing tonnage being about 35 per cent of the average of other carload traffic.

It has become necessary to run special trains or regular trains with only a few carloads in order to make desirable markets. Special runs are frequently made by trains in gathering carloads of stock and getting them promptly under way. This is particularly true on branch lines where much livestock originates. Livestock trains are generally scheduled to run several miles per hour faster than most other trains and are given expedited movements through terminals, not only to reach the markets on time, but to avoid so far as possible the necessity for stoppage in transit for water, feed and rest, as well as to comply with Federal statutes as to the time livestock may be continuously kept in cars.

Numerous pens for loading and unloading purposes are provided, not only at origin and destination, but at intermediate points for water, feed, and rest, and the carrier is required to bear the expense of loading and unloading livestock at public stockyards, and where loaded or unloaded for water, feed and rest. Most other carload freight is loaded and unloaded by the shipper. During periods of contagious diseases of livestock the cars, pens and other facilities used in loading and unloading stock must be disinfected after cleaning, which also involves a very substantial expense.

It can be easily seen that this is another way railroads of the Nation have contributed and are contributing their part to the improvement of modern civilization. It is interesting in this particular to know that the stockmen are now almost the only class of shippers to whom the railroads may issue passes, for livestock shippers are permitted to send caretakers with their stock without paying for their transportation, and passes are provided for these caretakers with which to make their return trip.

CHARLES B. DRISCOLL

WE ARE GROWING UP

When a boy reaches the age of adolescense he is likely to become very self-conscious. Seldom does he do much strutting while his very rapid transformation from boyhood to young manhood is causing him so much amazement. His legs are growing so long that he can't get used to them. His hands are getting so big that he doesn't know where to put them. He blushes easily, and he begins to feel that he is somehow a misfit in the world.

At this period of a boy's life, much is required of the parents and adult friends of the young fellow. We are beginning to understand now that it doesn't do to make fun of the boy for being a boy. It leads to no good to laugh because the poor fellow's voice is changing. Adults who have any sense of decency and sympathy just accept the adolescent as an adolescent, and try to help him adjust himself to his widening world.

At best, the self-conscious adolescent is likely to become very much discouraged with himself. He is all too likely to conclude that he is the most awkward, no-account, crazy youngster who ever lived. He may become so self-critical that he will sit down and consider ways and means to rid the community of his presence.

* * *

The United States is a nation that is just coming into its young manhood. It has been a vigorous, bright, romping youngster, and now it has reached the self-conscious, blushing stage.

That's why we have all these denunciatory and belittling books and stories about America, by Americans. We, as a people, are beginning to over-emphasize our own faults. We imagine that our feet are too big, that we laugh too loudly, that we are too enthusiastic, that we buy and sell too much, and we are inclined to blush and fidget whenever some person from abroad remarks that we are very rich and growing amazingly fast.

It is a passing phase. We are now at the worst of it. We are making fun of ourselves in public, and the older nations look on with mingled surprise and amusement. We accuse ourselves before the passing multitudes of having too many Main streets and Babbitts and newly rich oil men. In fact, we've become so self-conscious that we're almost ready to go out behind the barn and blow our brains out. But very quickly now we'll get over it and awake to realization of the fact that we are leading the procession

Six Philadelphia Firemen Injured, Ten Are Rescued

(International News Service)

PHILADELPHIA, May 17.—Ten persons were rescued and six firemen injured in two fires here early today.

Awakened by the cries of his four-year old daughter, Sylvia, Harry Bugay, 32, found his home ablaze. Bugay aroused his wife Sarah, 30, who fled with their daughter, Saly, three, while her husband carried Sylvia and Joseph six to the street.

Plan Transfer Of Twenty Prisoners To Atlanta Prison

(International News Service)

PITTSBURGH, Pa., May 17. — Barring unforseen court orders, James C. McGregor, U. S. Marshall, will escort about 20 prisoners to the penitentiary at Atlanta next Tuesday, he stated here today.

McGregor said the longest sentence to be served will be that imposed during the last term of court on Ephraim Humber, charged with circulating spurious $20 bills in Indiana County. He faces a six year term in the Atlanta prison.

Dr. Crane's Editorial

mankind and its stage of progress warranted him.

Since his day there has been a great progress made. Formerly, religious denominations were cruel. It was common to have fierce fighting among sects and both protestants and Catholics were guilty of things of which they would not nowadays be guilty.

The idea of God has undergone considerable variations. God may be the same "yesterday, today and forever", but our understanding and apprehension of Him progress.

We have rejected the old tribal gods, the god of wrath and vengeance, and have substituted the god of Love.

As the process of men's minds has broadened, as their understanding and sympathy have deepened their conception of God has improved, and no one can look at the activities of churches today and compare them with those of yesterday and not see that there has been a great advance.

The missionaries in foreign countries are not so much interested in making converts to their beliefs as they are in doing good to the people.

The recent activities of the churches, such as the Y. M. C. A., the Y. W. C. A. and the Y. M. H. A., have all been in the line of helping humanity rather than of fighting certain beliefs.

In other words, there has been a definite evolution of religion from merely belief in certain tenets to practical helpfulness of mankind. Religion means nothing more than a devotion to the general good. Whatever there is of God nowadays is a God who inhabits all of the people and whatever makes for the welfare of all mankind is pleasing to Him.

Religion, like everything else, must be tested by its results. Its triumph is not due to its wanting all people to believe in certain things so much as it is in improving our well being.

The Music Club

Monday evening marked the close of the Year for the Music club in the Scottish Rite Cathedral. A preliminary program including numbers by Miss Maria Platt, Miss Betty Houston, and Miss Gladys Stephenson, was in charge of Mrs. Robert E. Fleming.

The annual report of the treasurer Mrs. Howard Platt Meehan, was read an accepted. Miss Schwartzel of the Manufacturers Light and Heat company extended an invitation to the members to attend a series of lectures and demonstrations.

It was voted by the club to become one of the guarantors of the Educational Art Society Course, and Miss Helen Ewing was appointed auditor of accounts.

The remainder of the evening was devoted to a program composed entirely of men under the leadership of Richard E. Johns, introducing the Castle Singers, with the following personnel. George Anthony, tenor, Joseph Stritmater, second tenor; Richard E. Johns, baritone, Harry Evans, basso and Edwin Lewis, pianist.

Piano solos were rendered by Sherwood Johns, solos and quartet numbers by the castle singers, and piano solos by Edwin Lewis, all of which were well received.

Neshannock Church Has Fine Banquet

Neshannock United Presbyterian church held a fathers and sons, mothers and daughters banquet at the Liberty Grange hall on Friday evening, May 13, at which about 155 men and women, boys and girls enjoyed the fine time prepared for them.

Rev. J. Ralph Neal of New Wilmington was the principal speaker of the evening.

WHY DRAG AROUND HALF SICK?

There's only one kind of health—the kind that makes you want to go out and conquer the world. If you are not 100 percent full of life, energy and go, nine times out of ten it is due to congestion of the blood vessels some place—some mucus membrane is all clogged. That's catarrh.

What Catarrh Means

It means that the secretions of the body—the digestive fluids and every other gland activity, is poisoned by this catarrhal membrane. If your stomach has catarrh, how can the digestive juices, which must go through the mucus membrane, be free of the poisons? How can these membranes absorb the nutrition from the food you eat without mingling with it the poison of congestion?

Man, you can't be well if you have catarrh!

Treating catarrh is just what this superb remedy is made for. It is the result of research and experience. When you want to get well, to feel good all over, you can do so.

World's Catarrh Treatment

the one great treatment that has made hundreds of thousands feel the vim of new life; that has cleared up the congestion and relieved the stagnation.

This wonderful remedy is sold by McKee's, Eckerd's, Paisley's, Smith's and all other good druggists. (277)

Virgin Timber Is Being Cut

(International News Service)

KANE, Pa., May 17.—The Central Pennsylvania Lumber company reports considerable progress is being made in cutting virgin timber in the Bear Creek section near here. Logs are being shipped to Sheffield where they are converted into lumber.

The company hopes to clear this section of timber within two years and at the present rate this would not seem impossible. Many of the trees are so large that two men can hardly span them by joining hands.

REAL POWER

with the new 1927 Atlantic Gasoline

YOU are accustomed to thinking of gasoline principally in terms of *power*. But, do you ever think of the processes it undergoes in *acquiring* power? And the exact composition it must have to be able to *deliver up* its power?

These things have occupied an immense place in the scientific world ever since the automobile was invented.

Atlantic engineers have recently made one of the most notable contributions to the science of gasoline refining

By combining certain elements from different types of crude (California, Texas and West Virginia), they have developed a gasoline which meets the requirements of present-day motors more perfectly than any other gasoline ever produced.

By effecting certain chemical changes, through newly discovered refining processes, they have enabled it to give up more of its inherent power than was ever before possible. The new 1927 Atlantic is unquestionably

the snappiest, cleanest, rangiest, most complete-burning all-round motor fuel you have ever put into your tank

Get a filling today. Starting will prove how easy Atlantic vaporizes when the motor is cold.

Traffic driving will prove its sure-fire ignition when you give it the word.

Hills will prove the torrent of power it puts at your command.

The insignificant dilution your motor oil suffers and the almost imperceptible deposits of carbon in your motor—both will prove how thoroughly every drop of this new 1927 Atlantic translates into live, wheel-turning energy.

Your mileage recorder will prove its economy.

Roads Being Oiled During Present Week

During the week ending May 21 there will be no road oiling in Lawrence county but several neighboring counties will have roads oiled and surfaced with limestone chips. Motorists who are planning trips to some distance from New Castle may wish to know just where these oiling activities are being carried on, and thus plan their trip so that they need not pass over roads that are being freshly oiled.

Oiling of macadam and other roads is a fine way of preserving the roads but a freshly oiled road is very dangerous on account of the slipperiness of the hot tar. Also the tar on the car may spoil the polish of the paint of the car so many wish to avoid such roads if possible.

In Butler county the oiling of the brick pavement was not completed in Harrisville last week on account of the weather. Oiling will also be done on the Butler-Pittsburgh road between Butler and Bakerstown. Also between Freeport and Saxonburg and between Freeport and Breckenridge.

In Beaver county oiling is scheduled for the road between Midland and Smith's Ferry, New Brighton and Ellwood City, Beaver and Fairview and between Beaver and Route 51—the old Lincoln Highway route.

In Crawford county oiling will be done between Meadville and Linesville and in Linesville.

In Erie county oiling is scheduled between Albion and West Springfield. In Washington county between Washington and Canonsburg, between Morganza and McMurray, Hickory and Avella.

Measuring roofs by a "year-stick"

The sky-line of a busy world—a world of industry housed in modern structures that are protected by Barrett Specification Roofs

THERE'S only one way to measure roof value—that's by the "year-stick." The really important question is: "Which roof will last longest with the least trouble and expense for upkeep?"

In all our long experience as roofers, we've never run into anything that equals the Barrett Specification Roof. Many roofs of this type built 40 or more years ago are still in A-1 condition.

Bell May Escape Prison For Some Months Longer

(International News Service)

PITTSBURGH, May 17.—John A. Bell, bankrupt Carnegie financier, may escape a prison cell a few months longer.

Although orderd to begin serving a six and a half year term in the Allegheny county workhouse at once, Bell may be released soon after the formality of checking him in at the workhouse is complied with his counsel said today.

As a prisoner needing medical attention and treatment in a hospital, the aged financier is entitled to go to a hospital under guard, Attorney O. K. Eaton, Bell's counsel declared.

Under a ruling of Criminal Court Judge Thomas J. Ford, Bell must surrender at the workhouse at once. Judge Ford ruled that commitment to jail would not work undue hardship on Bell's health. The sentence is for conviction of embezzling funds of the Carnegie Trust company which he formerly headed.

Lost For Three Days In The Everglades

GROVE CITY, Pa., May 17.—Nevin Nicholson, son of Rev. H. S. Nicholson, formerly of Grove City, but now residing at Fort Lauderdale, Florida, after being lost in the swamps of the Everglades for three days, finds his way back to civilization with the aid of a band of Seminole Indians, according to word received here yesterday. Nicholson was attempting to cross the Everglades by way of the proposed Tamiami Trail, and losing his way, spent three days and nights in the wilderness, living on whatever he could find to eat. He reports interesting experiences with the wild animals of the Everglades, seeing over seventy different species of birds besides numerous animal life such as otters, deer, wild cats, and wild turkeys. With the aid of a band of Seminole Indians, which he happened to meet on the third day, Nicholson was able to find his way back to Fort Lauderdale, unharmed but with no inclination to repeat his experiences.

New Official For Bell Telephone Co.

H. C. KUNKEL
Plant Manager

Appointment of H. C. Kunkel as plant manager, western area, the Bell Telephone Company of Pennsylvania, with headquarters at Pittsburgh, has been announced by F. J. Chesterman, vice president and general manager of the company.

In announcing this appointment Mr. Chesterman said: "Mr. Kunkel started in the telephone business 30 years ago at Philadelphia, Pa., has occupied various responsible positions throughout the eastern part of the country. The growth of the business, carrying with it many problems of plant operation, requires the services of an experienced and capable man like Mr. Kunkel".

Prior to his transfer to western Pennsylvania Mr. Kunkel was plant manager of the central area of the Bell Telephone Company, with headquarters at Harrisburg. He succeeds S. B. Williams, who has been given an indefinite leave of absence due to illness.

Gas Tax Collected In Lawrence County $34,983 For Quarter

Lawrence county paid $34,983.35 gasoline tax during the first quarter of the year ending March 31, according to figures given out by State Treasurer Lewis. One fourth of the amount collected comes back to the county for the improvement of roads.

The total amount collected in the state for the first quarter was $2,629,526. This was on 121,455,526 gallons of gasoline. Increase over the same period last year was $849,553.

Tax collected in neighboring counties for the first quarter was as follows: Mercer, $30,447.48; Butler, $27,852.99; Beaver, $37,699.27; Crawford, $21,519.89.

The new tax, which is increased from two to three cents, goes into effect on July 1.

Large Supply Of Narcotics Seized

(International News Service)

HARRISBURG, Pa., May 17.—With the arrest here of Lloyd E. Fetterholf, 36, of Harrisburg, and the seizure of morphine valued at more than $5,000, Federal narcotic agents today believed they had struck at the source of supply of scores of addicts in this district for the past several years.

Agents and local police said they trapped Fetterholf with "marked money" and that he confessed that he was an addict and had sold narcotics in this district for many years. He was held for a hearing before a U. S. commissioner.

Liquor Shipped As Liquid Soap

(International News Service)

PITTSBURGH, Pa., May 17.—Federal prohibition officials are today endeavoring to find the shippers of 75 gallons of alleged alcohol shipped in two large packing boxes from Philadelphia to the Keystone Supply Company, as a consignment of "liquid soap."

The alcohol was seized late yesterday by dry agents in a downtown railroad freight station. The Keystone Company is a fictitious name, it was said.

Calliope Music Put Under Ban

(International News Service)

MONESSEN, Pa., May 17.—Calliope "music" is banned in Belle Vernon, near here and such music hereafter will be discontinued within the limits of the borough by order of Burgess Lange.

A Charleroi concern owning the Reed pipe instrument intended to take the Calliope through the town playing the best it knew how, in order to make a test case.

When ordered to stop playing the Calliope was advertising a moving picture theatre in Charleroi, nearby.

ALUMNI PLAN FOR REUNION

New Castle High School Graduates To Meet At Park In June

An enthusiastic meeting of the reunion committee of the New Castle High School Alumni Association was held last evening at the Y. W. C. A. with forty representatives of more than twenty classes of the High School represented. The reunion will be held as usual in Cascade Park during the month of June.

Dr. Raymond Lutz was appointed as chairman of the committee by Edwin C. Wilson, president of the association and presided at the initial meeting of the committee. Miss Jeannette Hutton, treasurer of the association, will have charge of the funds of the annual event. H. K. Bell was appointed as chairman of publicity.

It was the opinion of those in attendance, that the affair should be made attractive to as great a number of the former students of New Castle High School as possible and that in addition to the annual get-together picnic dinner in the grove at Cascade Park and the dance at the pavilion in the evening, that other features should be arranged for that will prove of interest to the former students and their families.

One of the suggestions made is that the fun house or some other similar concession or concessions at the park be secured for the evening for the use of the alumni and their families.

The reunion will be an event of Friday, June 17 and the members of this year's graduating class of the Senior High School will be guests of the association at the dance and other features of the affair.

The respective classes will arrange their own methods of getting members of their classes together for the picnic dinner and the evening. Older classes will probably make this arrangement in groups of classes that were closely associated together in school.

It was decided that the annual dues should remain at fifty cents this year, this being considered ample to meet all expenses of the association at the reunion and during the ensuing year.

No Ugly Ducklings

A monopoly on good looks seems to be held by the family of Mr. and Mrs. Thomas W. Alexander, of Charlotte, N. C. Recently Alice, 12, was chosen the prettiest child in the junior high school there and her brother, Frank, 15, has been chosen the handsomest boy in the same school. A brother, Thomas, 17, received that honor last year. Neighbors say if beauty contests were held in the second grade, Syd, 7, would carry off the title.

New Wilmington To Give Concert

Final Exams Now Started; Baccalaureate Sermon Next Sunday Evening

New Wilmington high school will give its annual concert in the Community House on Friday evening May 20 at 8 o'clock.

The program is attractive with vocal numbers and instrumental additions. Miss Alice Nieveen has had charge of the arrangements for this affair.

Seniors of the high school were busy sitting for their photographs on Monday, Tuesday, Wednesday and Thursday will be the days for the final examinations for the seniors after which they will be excused from further classes.

Sunday evening May 22 will be baccalaureate night for the graduating class. Dr. S. A. Kirkbride will deliver the baccalaureate sermon this year. Music will be furnished by the chorus.

Boy Scout News

TROOP 10.

The Epworth troop will meet this evening at 5:30 o'clock for an outdoor meeting. The members of the troop are to meet at the Aiken school at the stated time. Scoutmaster Guy L. Raney urges all the scouts to be present as the meeting will be very important.

TROOP 18.

The Highland Troop 18 of the Boy Scouts of America will meet this evening in the basement of the Highland U. P. church at 7:30 o'clock. Scoutmaster Ralph F. Davis will be in charge of the meeting and urges a full attendance.

HIKE POSTPONED.

Plans for the hike to be held by the graduates of the Scout Leaders Training school conducted in the early part of the year and which was to have been held May 21 and 22 have been rearranged and the hike postponed to June 11 and 12.

This change has been made because of the unfavorable weather conditions. It is hoped that at that time conditions will be more fit for such an event.

TROOP 5.

The Elks Troop 5 will meet tomorrow evening in the Elks club for the regular weekly meeting. Scoutmaster Ralph F. Davis will be in charge of the meeting. The troop committeemen are urged to be present, also visitors are invited.

CAMPOREE.

Many regisrations have been received in the scout headquarters in the past week for the main spring event the Camporee. It is expected that the competition of the participating troops or patrols will be very keen as each is determined to get all the good possible out of the event. Much practice on the part of members of the patrols and their stern detmination to win the Dr. Rosenthal cup and get the trip to Greensburg will make the Camporee this year the best ever held by the Lawrence County Council.

Dates set for the Camporee were for May 20 and 21, however, due to the disagreeable weather conditions and as the Camporee is an outdoor sport the time has been postponed to June 10 and 11. All are asked to particularly notice this change and remember that June 10 and 11 is now the time for the big event.

Freak Weather In Kane Area

(International News Service)

KANE, Pa., May 17.—Freak weather has been visiting this section of the state, reports from the district around here showed today.

Several snow flurries occured in this city and vicinity late yesterday, following a downpour of rain during the greater part of the day.

Between this city and Mt. Jewett enough snow fell to blanket fields with a white mantle usually seen in winter.

Commercial Student Wins Speed Contest

GROVE CITY, Pa., May 17.—Miss Naomi Hammerberg will be awarded a new portable Remington typewriter for winning the speed and accuracy test which was given to students of the Commercial Department of Grove City College by the Remington Typewriter Company. Miss Hammerberg won the contest, which was open to all students who had previously won the Gold pin award for speed and accuracy, by maintaining the speed of 69 words per minute for fifteen minutes, or making 5188 strokes in the time limited. V. R. White, of the New Castle branch of the Remington Company, states that this record is seldom ever beaten or equalled. Thirteen gold pins have been awarded this year to different students in the typewriting class and only these were permitted to enter the contest for the portable machine.

It may be significant that in the effort to select a new national anthem nobody suggested "The Sidewalks of New York."

Good Health for A Trifle a Day

Don't be envious of the glorious health of Grandpa.

You can get that "Kruschen" feeling of cheerfulness, of freedom from fatigue, of enduring energy and vitality.

In spirit and ambition the old boy is just as young as he ever was. His health is as robust, his enjoyment of life as keen, in spite of his 60 years. Old age he knows not.

Follow his example and more and more as the days pass by you'll appreciate the great blessing that the joy of living brings.

Drop two tablets of Kruschen Salts in your coffee or tea every morning—you can't taste it but the effects are almost magical.

If you are a hot water drinker you can more than double its health value by the addition of two tablets.

It's the little daily dose that does it.

Firestone Dealers

The Mark of Quality

Have Purchased 100% More GUM-DIPPED TIRES

(This Year Compared With Same Period Last Year)

THE demand from car owners for Firestone Gum-Dipped Tires has given Firestone Dealers a large increase in volume that enables them to sell these tires to you at the lowest prices in the history of the industry.

On the cars of motorists everywhere, in the every-day service of the largest truck and bus operators, these wonderful tires are delivering unheard-of long mileage together with greater safety and comfort.

The Firestone Balloon Tread, scientifically designed three years ago, and unchanged today, follows the contour of the tire carcass with no excess rubber at the edges to cause "shoulder breaks". Narrow rider strips permit the tread to yield to depressions and cling to the road, preventing skidding. This tough, pliable tread has the wear-resisting qualities that give thousands of extra miles of service.

The tread, however, is not the only important part of the balloon tire. It must be placed on a carcass that has the qualifications to withstand the terrific flexing that this design permits. The Firestone carcass is made of cords dipped in a rubber solution which not only saturates and insulates every fiber of every cord, but unifies sidewalls with carcass, eliminating any possibility of separation under the extreme flexing of low pressure tires.

Many Firestone Dealers are prepared to take your old tires, offering you a liberal allowance on a new set of Firestone Gum-Dipped Tires to start the motoring season.

To meet a demand for a low price tire and tube, Firestone designed and manufactures, for Firestone Dealers only, Oldfield Tires and Tubes, which carry the Standard Manufacturers' Guarantee.

HOUSEHOLD HINTS

BY MRS. MARY MORTON

MENU HINT

Three recipes for cooking chicken are included in today's recipes. I have already printed directions for cleaning and dressing the fowls, also for fricasee.

Fried or Broiled Chicken
New Potatoes with Parsley
Creamed Green Onions
Cabbage salad with Pimento
Rhubarb Pie Coffee

TODAY'S RECIPES

Fried Chicken—Cut the chicken into pieces and, excepting for broken and very young chicken simmer in a small amount of water until tender. Drain, saving stock for the gravy, rub with flour, salt and pepper and saute in an iron frying pan in bacon fat or butter until evenly browned. Serve with a brown gravy made according to the directions in fricaseed chicken.

Cooking Giblets—Remove the attached membranes from the head, the inside sack from the gizzard. Cut out a piece of the gizzard where the gall bladder is attached. Soak the giblets in salt water ten minutes and cook in fresh water until tender. Cook around the bird when roasting or stewing. They may be chopped and used with the water in which they were cooked for the gravy.

Broilers—Dress the broilers, rub inside and out with flour, salt and pepper. Dot with butter or bacon fat. Place in a dripping pan and sprinkle with sliced onion. Cook in a hot oven until tender (about three-quarters of an hour), basting occasionally with the fat. They may be cooked in the oven twenty minutes and finished by broiling under a flame fifteen minutes. Fried broilers may be prepared by following directions for fried chicken.

SUGGESTIONS

Onions in Disguise

If you are fond of a little onion seasoning, and there is one member of the family who does not care for them, either grate the onion or use onion salt. You will obtain the flavor and nine chances out of ten the "fussy" one will eat more than anyone else.

Asparagus in Tomato Sauce

Fresh asparagus is delicious baked in tomato catsup. Choose the green asparagus, as it is less woody than the white. First boil it in salted water until almost tender and then drain and place in an oiled baking dish. Add one cup catsup, cover with buttered crumbs and heat for twenty to thirty minutes in a moderate oven. Serve hot in the dish in which it is cooked if possible.

TWO FIRE ALARMS

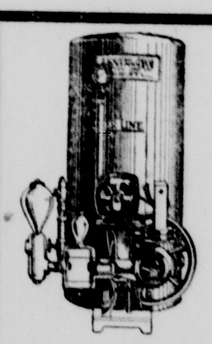

Firemen were this morning called to North street, near the post office, by an alarm from box 26. The cause of the alarm was a slight fire in the brake lining of the car of Alex Wright. The loss was $10.

An alarm was sounded last night from box 21 at 7:05 p. m. It proved to be a false alarm no fire being found in the vicinity of the box.

The hardest thing about loafing is buying cigarets on credit.

Community Service Aids Tubercular

Statistics Show The Great Help Of Local Service To Tubercular People

ELLWOOD CITY, May 17.—The following report is given by the officials of the Community Service League in an effort to point out the important fact that money given to the annual Community Chest Drive each year actually does good.

In the Tuberculosis clinic alone their help has been immeasurable. A detailed report follows:

Medical science has made many, many advancements in recent years and preventative medicine is being practiced by every up-and-going physician. Our state of Pennsylvania realizing that preventative medicine is the latest and the best, has brought it to our very door in the form of a Tuberculosis Clinic conducted under the supervision of the State by the Community Service league.

This clinic is conducted every Monday afternoon from two until four and is in charge of our State Physician, Dr. H. C. Harper, who devotes his time to this mighty cause, namely, to annihilate the Great White Plague.

It was formerly thought by a great many people that one suffering from Tuberculosis was a menace and was to be avoided and that he or she was incurable, and, therefore, the life of a tubercular patient was a lonesome one with little to look forward to but ostracism and finally death. The tubercular patient IS a menace if not instructed as to their personal habits and the respect they should have for their fellow men. This instruction is given by an expert medical man at the weekly clinics and follow-up work is done by a graduate nurse.

No longer is the patient believed to be incurable. Tuberculosis IS curable if taken in its earlier stages, and by rest, good wholesome food, plenty of milk, fresh air and a peaceful state of mind the worse case may have prolonged life many years.

The State realizing that such care cannot be given in many homes where Tuberculosis prevails has spent millions of dollars and has provided modern hospitals, such as Cresson, Mt. Alto and Hamburg, where the patient who cannot be cared for at home may go and receive the best advice and care the medical and nursing world have to offer.

The only way to gain admittance to such a sanitorium is through a State Tuberculosis Clinic such as Ellwood is privileged to have. No other feature of the Community Service League's work has been more gratifying than the results obtained through the Tuberculosis Clinic. Patients are all welcomed and given an equal amount of attention regardless of social standing, color or nationality.

There have been 616 patients entered in our clinic since its establishment in 1926. Children who have been classified as being pre-tuberculous are instructed as to their habits such as sleeping with open windows winter and summer, eating the proper food and acquiring a specified amount of sleep. Those who have a doubtful history are requested to return as often as necessary until the Doctor can determine the cause of their symptoms and make a diagnosis of their case. Patients who are found to be tuberculous and who cannot see their way clear to go to a Sanitorium are instructed and advised and are made to feel they are not a menace to civilization or that they are incurably ill but that they must be careful not only for their own sake but for the health of all those with whom they come in contact.

This work is conducted with absolutely no expense to the patient except where Sanitorium care is necessary, then it means carfare if the patient can afford it. If not the expense is borne by the Community Service League.

This work is saving human lives by combating a dread disease is a most worthy cause. We ask your support.

Retirement Of Drys' Leader Because Of Health Forecast

By CHARLES P. STEWART
Exclusive Central Press Dispatch to New Castle News

WASHINGTON, May 17.— No wonder prohibition's leadership in Washington has seemed erratic of late. No wonder recent dry policies at the capital have taken directions it was hard to understand.

Wayne B. Wheeler is about to pass out of the picture, they say.

He's a very sick man, according to his friends.

Everything possible appears to have been done to minimize the seriousness of his illness, in the hope that he might mend, but at last it's admitted that he has been in failing health for months.

His retirement is beginning to be predicted now.

* * *

Politically speaking, Wayne B. Wheeler's has been about the last word on the subject of national prohibition for around ten years.

The drys, it's to be borne in mind, didn't come into power as a party but as a non-partisan force. They never have been the government, as the dominant party is. Instead they've told officialdom what they wanted. To do this they needed a spokesman and that's what Wayne B. Wheeler's been—plus a great deal more.

Originally Wheeler was spokesman soley for the Anti-Saloon League, which is only one among a number of prohibition organizations, but most, if not all, of the others presently accepted him as theirs, too, simply because they recognized in him the ideal man for the job.

* * *

For his place, Wheeler was a perfect fit.

It isn't quite exact to say he was a leader. He never was official head even of his own group, the Anti-Saloon League. Officially he was, and is, its general counsel.

More accurately, as to prohibition, he was an embodiment. When he expressed himself, as prohibition's spokesman, it was prohibition expressing itself.

Good team work on all the dry organizations' part was vital and Wheeler was the diplomat to insure it.

He had intelligence and determination and courage, a flair for publicity, endless patience, boundless industry and enthusiasm, and he never loses his head.

Wets don't like him but no wet who knows him ever denied he's a wonderful man.

* * *

As a dry politician its' safe to say Wheeler hasn't an equal in the United States.

All the politics he knows, he knows from the dry standpoint, but from that angle he knows it in all its ramifications, unto the third and fourth generations, both ways.

It goes without saying that no cause can lose a general like this without suffering a certain amount of disorganization, and there are signs of it in the dry's ranks.

The struggle over Roy A. Haynes, as a candidate for the permanent post as prohibition czar, is just one of them.

* * *

Indeed, rumor hath it that the Haynes row isn't so much over Haynes as it is a test of strength to determine who shall step into Wheeler's shoes.

It's no cinch that anybody can fill them.

Somebody can be chosen, of course, but can he hold the faithful together and lead 'em as warily as Wheeler has?

Prominently mentioned possibilities are:

F. Scott McBride, of the Anti-Saloon League, who has been acting as Wheeler's assistant in recent months; Dr. Clarence True Wilson of the Methodist Episcopal Board of Temperance, Prohibition and Public Morals, and Dr. E. W. Dinwiddie of the National Temperance Bureau.

State Konclave At Gettysburg

(International News Service)

GETTYSBURG, Pa., May 17.— Pennsylvania Knights of the Ku Klux Klan will hold their annual State Konclave here May 28 to 30, it was announced today.

A feature of the three-day session is to be a Memorial Day parade of Klansmen, in which 1,000 members are expected to participate, clad in full regalia. Permission has been granted for the demonstration, officers said.

A camp is to be established along the Lincoln Highway about a mile east of town, where the programs will be held. The Konclave is usually held the first week in October, but it was decided to change this year. Gettysburg has had the meeting for the past two years.

To Abandon Mine Burning 58 Years

(International News Service)

TAMAQUA, Pa., May 17.—Summit Hill Mine of the Lehigh Valley Coal and Navigation company, where a mine fire has burned continuously since 1869, is being abandoned.

The famous mine, upon which the company has spent millions of dollars in attempts to extinguish the fire, is being stripped of coal, and it is estimated that within six months a deep hole in the ground will be all that is left of the mine.

Governor Fisher Designates Flag Week In State

(International News Service)

HARRISBURG, Pa., May 17. — Gov. John S. Fisher today issued a proclamation designating the week of June 8 to 14 as Flag Week in the state. The Governor asked that all patriotic citizens and organizations give the week designated the observance which it deserves.

The proclamation follows:

The flag has become more and more the symbol of a mighty Nation. Carried to the utmost parts of the earth, it has been thrown to the breeze proclaiming liberty. There is special significance attached to the flag for Pennsylvanians on this and the Sesque-Centennial of its adoption. Betsy Ross designed the flag at her home in Philadelphia. It was officially adopted by Congress on September 3, 1777, and again it received its baptism of blood in Pennsylvania at the battle of Brandywine just eight days later, September 11, 1777.

I urge upon my fellow-citizens that the flag is unfurled over home and school and public places, we give new thought to all that it means to us; that we remember with gratitude and reverence those whose sacrifices have preserved for us the blessings of a united and prosperous Nation; and that we pledge ourselves to keep that flag and what it represents safe from outward attack and inward decay.

NOW, THEREFORE, I, John S. Fisher, Governor of the Commonwealth of Pennsylvania, do unite with the Governors of other States in proclaiming as FLAG WEEK June 8th to 14th, and I call upon all patriotic citizens and organizations of the state to give it that observance which the occasion deserves.

(Signed)

DO YOU KNOW?

That it has always been a Ford policy to provide transportation at lowest cost; and while desirable features, such as starter and balloon tires, are now standard equipment. Special equipment which is often wanted by some purchasers, but which would have to be paid by all if adopted as standard is not included in Ford prices.

Any of this equipment can, however, be purchased at extremely low cost by the owner who seeks to individualize his car.

Slippery Rock

LOYALTY CAMPAIGN

In spite of chill and rain and mud, very serious handicaps in this rural community, the third Sunday of the Loyalty Campaign of the local Presbyterian congregation registered another advance in Sunday school attendance as well as in the crowds attending the regular church services. At Sunday school 319 were present at roll call, as against 301 a week ago. This increase of 6 per cent was peculiarly gratifying when every prospect was for a considerable decrease.

The morning service was a symposium, seven different speakers giving four minutes each to the discussion of "What the new church means." As a business man B. P. Stillwagon, who presided at the meeting, discussed the question; for the young people, Miss Helen Hutchinson; for the trustees, Coach N. Kerr Thompson; for the elders of the church, N. F. Doerr; for the students of the local teachers college, Ralph M. Edeburn; for the women, Miss Inis McClymonds, and for the Sunday school, Superintendent Clyde M. Lady. The program, divided into two parts by special music by Miss Emily Hilsman, was one of the most interesting and inspiring of the entire campaign.

Here are some striking sentences used by various speakers:—"Your business and my business is to help others spiritually. This church is our biggest business." "If this new building is the means of bringing but one soul to the Master, it is well worth all the money spent upon it." "This new building will attract students, will make possible a human touch now missed by them, and will make possible the training of students for Christian work." "The hope of every mother that strong Christian character be laid in years of childhood grows stronger with the improved equipment." "For the Sunday school these four objectives: Every church member in the Sunday school; every one studying the lesson and helping in the discussion; an up-to-date teacher training program; a real missionary program.

The evening service was in charge of the young people. It was attended by the local troop of Boy Scouts in a body. The address was by Reverend C. N. Moore, of Zelienople, a former pastor of the church.

The roll-call was conducted by having every one present lay on the collection plate a card on which he had written his name. The entire day was really an enthusiastic success in spite of the adverse elements.

New Wilmington Rotarians Honor College Students

(Special To The News)

NEW WILMINGTON, Pa., May 17.—Rotary Club of New Wilmington last night inaugurated in a very successful manner an annual event to be held by the organization for the sons and daughters of Westminster College graduates who are Rotarians and attending the college.

Places were laid for 45 at the sumptuous dinner, which was held in Hotel Neshannock. Twenty-one of the number were students of the Westminster College and the sons and daughters of graduates of the college.

W. W. Campbell acted as toastmaster. The principal address of the evening was made by J. Lee McFate of New Castle.

Other speakers of the evening were Dr. W. Charles Wallace, president of Westminster College; Mrs C. B. Robertson, dean of women at the college, and Haldon Williams, who expressed the appreciation of the students for the honor of being present at the event.

It was definitely decided during the evening that the event should be an annual affair under the auspices of the New Wilmington Rotary Club.

Bible Class Works For Westminster

(Special To The News)

NEW WILMINGTON, May 17.—"Shall 'Old Main' Be Forgotten?" This is the title of cards which are being sent out by the Westminster College Y. M. C. A. Bible class, of which Dr. R. J. Love is teacher.

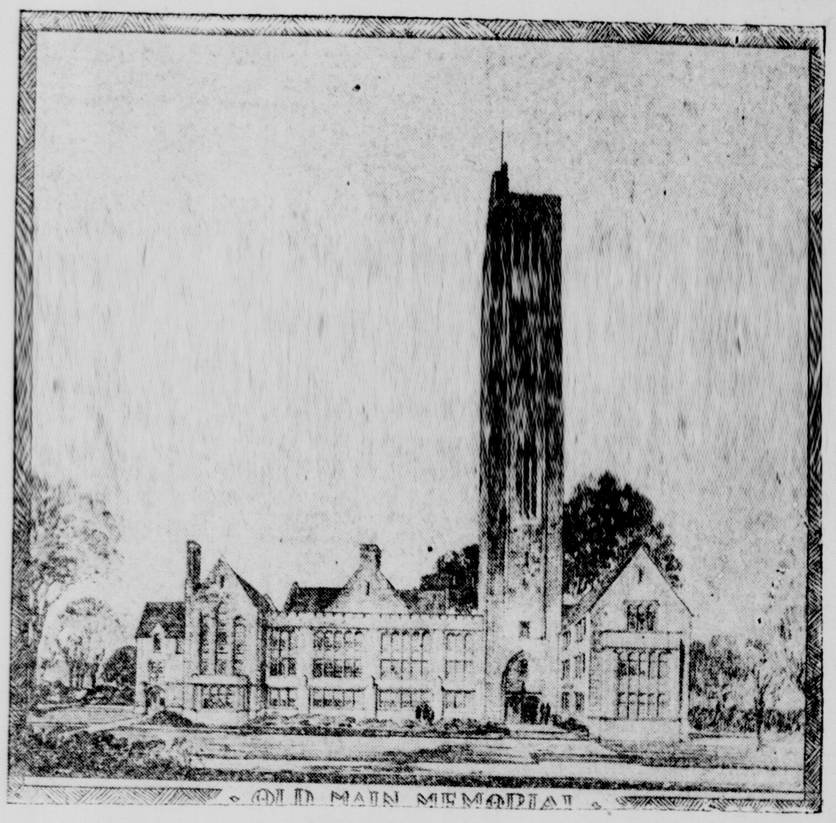

The plea of the card reads: "Shall 'Old Main' Be Forgotten?" "We hear the answer: 'No!' Ten thousand times, no"! Then are you willing to do your part to help replace it? Will you join in our petition that God move the hearts of His people to respond to the call of Westminster College for financial aid in the erection of a new building to replace "Old Main", recently destroyed by fire.

Will you pray, also that the faculty and students may be strengthened to continue steadfast in the work which they are attempting to do under the present trying circumstances?

Each member of the Bible class has mailed 10 cards to friends.

Up to the time of the Civil War no less than $24,000,000 had been spent in the construction of levees on the Mississippi and its tributaries.

Proposed College Memorial

Proposed plan of "Old Main" Memorial at Westminster college, the building to replace "Old Main" the administration building destroyed by fire the morning of January 24.

Architects plans call for a collegiate Gothic building of native stone, trimmed with limestone. The structure will be most modern in equipment and appointments, fireproof throughout, with steel window sash and composition floors.

The main part of the building will be approximately 200 feet long and 90 feet wide. On the main axis of the building, facing the proposed campus development to the south will be a Gothic memorial tower 100 feet high. The main entrance will be a Gothic arched doorway at the base of this tower.

A loggia entrance will face Market street on the west end of the building, and the chapel wing, extending to the north, will have its entrance on Maple street.

The office of the college, a lecture room for public speaking purposes and a number of class rooms will be located on the ground floor. The chapel wing, two stories high, will be strictly religious in character and design.

The second and third floors of the main wing will be devoted to class rooms and departmental offices.

Ground will be broken for this new building early in June. It is hoped that it will be ready for occupancy within a year.

Out Door Rehearsal At College Friday

Plans For Annual May Pageant Are Progressing At Westminster

(Special To The News)

NEW WILMINGTON, May 17.—Mrs. Mary C. McConagha, director of the May pageant to be presented at Westminster college Saturday afternoon, May 28 has announced that the first complete out-door rehearsal will be held Friday afternoon starting at 3 p. m.

A rehearsal of dances on the athletic field, the site chosen for the presentation was scheduled for last Saturday but rain curtailed the program. However Miss Helen Webb of the Oakmont public schools was present and directed the dances in the college gym.

Mrs. McConagha has announced the personnel of the cast of "The American Indian." The activities of the group will be directed by Walter Wilkison of New Castle, student director.

Those chosen for the cast are: Carl Elers of Oakmont, Glenn O'Donavon of Homestead, Samuel Stewart of McKeesport, Bradley Evans of Erie, Paul Freed of Youngstown, Goff Maskery of Mercer, Amelius Profio of McDonald, Corbly Cleavenger of Pittsburgh, William Crowell of Sharon, Harry Anderson of Sharpsville, Kenneth Delehunty of Iselin, William Turnbull of Elizabeth, Glenn McCracken of Volant, John McElderry of Pittsburgh, Fred Mussman of Margaretville, N. Y., Stanley Pitzer of Jamestown, William Vance of New Wilmington, Wilson Botsford of Pittsburgh, Harry Rose of New Wilmington, Milton Boos of Buffalo, N. Y. and James Blackwood of Cleveland.

Pittsburgh Aims To Check Sale Of Spicy Magazines

(International News Service)

PITTSBURGH, May 17.—A fine of $100 or 30 days in jail will fall upon dealers or distributors of magazines of a spicy nature, if a city ordinance, prepared by city attorneys, is passed by the Pittsburgh council, it was revealed today. The new law is aimed at "indecent, lewd, lacivious or other immoral writings, printings or pictures."

Mr. Pierson has been president of the New York Merchants' Association, the New York State Bankers' Association and the American Bankers' Association.

NOT IMPROVED

At the New Castle hospital it was stated today that there is no improvement in the condition of Miss Maria Foster of Boston avenue and Union street, who was seriously burned Saturday night, when her clothing caught on fire from a gas stove.

She had a very restless night and her condition was still considered very serious by the hospital authorities.

Few are satisfied. We know a woman who has a platinum wrist watch set with diamonds and kicks because it won't keep time.

Economy Of Operation Is Chrysler Feature

Popularity of This Car Due Partly To Low Gasoline Consumption and Cost of Upkeep.

Analysis of the causes which have made Chrysler automobiles in the three years of their manufacture among the most popular cars on the market reveals one—economy of operation—which has won favor with purchasers and has commended this make to buyers of every range of income.

Economy of operation has long been a leading requirement of automobile purchasers, especially of those of average means; and statistics show that the most successful manufacturers are those who produce a good looking, roomy, dependable and durable car, which will give real performance, without sacrificing the principle of economy.

"To make the cost of maintenance and operation as small an item as possible has been the constant aim of Walter P. Chrysler," said J. W. Frazer, Chrysler sales manager, in a discussion of this point, "and those who have driven Chrysler cars under all sorts of conditions tell us that he and his associates have succeeded in their purpose.

"If the economy slogan of an automobile is to mean more than a mere collection of words two things are essential. Low gasoline and oil consumption on the one hand, and few replacements on the other hand. Considering the first of these points, we have always been kept advised of the remarkable records Chryslers have achieved in low gasoline and oil use. Before the advent of Chrysler in the automobile manufacturing field, a six cylinder car running as many as 20 miles on a gallon of gasoline was unheard of. Yet the Chrysler '70' has been doing it ever since that model was put on the road. The Chrysler '60' has been delivering 22 miles and more to the gallon right along. The Chrysler '50' tests have shown it to be capable of more than 25 miles per gallon of gasoline.

"It is the general opinion of Chrysler users, as their opinions are reflected in reports to us, that the Chrysler car, because of its sturdy construction and the durability of its materials, is one of the most economical of all automobiles in upkeep, and in cost of gasoline and oil its unique engine design gave it from the outset a lead over rivals that even their strenuous efforts of three years have never been able to overcome."

The Chambers Motor Co., 426 Croton avenue, are local distributors for Chrysler automobiles.

Motor Club Warns Against Car Thief

B. N. Hanlon Rates Present Season As Busiest For Car Snatchers

This is the time of the year when motorists should be most careful of their cars in regard to thieves, stated B. N. Hanlon, secretary of the New Castle Motor club today.

It is the busiest season for these car lifters and this fact should stimulate car owners to take extra precautions to keep their cars from falling into a crook's hands.

The fact that every one is using his or her car at this time explains the reason for this being the best time for the work of a car snatcher as it caused the congested conditions under which he works the best. It behooves the individual to take advantage of the various locking devices on his automobile if he does not feel like doing more.

"Locks may not always foil the thief, as many have pointed out, but they go a long way in discouraging him" says Mr. Hanlon. "If the thief finds a car securely locked as to ignition, gearset, door or otherwise, he will not spend a great deal of time on it under ordinary circumstances. Instead, he will go in search of another.

More machines are taken by joy-riders than by professional thieves. The thief may be an expert at picking locks and overcoming their effects, but the joy-rider is not. The temptation to take a car usually is quickly overcome if the joy-rider finds the task at all difficult. Therefore, if you lock your car, you are greatly decreasing your chances of losing the vehicle.

Hanlon stated that he has found, through signing up members, that many owners cannot give the engine, serial and license numbers. This is found to be the case throughout the American Automobile Association's clubs, with the local motor club is affiliated. It is a very good plan to know these numbers as they are a great help to finding your car.

Liquor Seizure Was Strictly Illegal

Huge Quantity Of Rare Liquor Confiscated At Home Ordered Returned

PHILADELPHIA, Pa., May 17.—Considered the most important decision handed down recently bearing on the prohibition laws, an opinion was filed Monday by Justice John H. Kephart, of the Supreme Court, defining " a private dwelling" within the meaning of the Snyder Act of 1923.

The decision upholds the convention of attorneys for the commonwealth and instructs quarter sessions court to issue an order declaring forfeited a large quantity of high grade wines, brandies, cordials, champagnes and other liquors valued at thousands of dollars, which were seized by the police in an old mansion here occupied by Veto Vedetto.

The seizure made by the police in April 1925, was fought through three courts. Quarter sessions court held the seizure to be unlawful and the commonwealth appealed to the Superior Court. The latter tribunal reversed quarter sessions court and then Vedetto carried an appeal to the Supreme Court which now affirms the Superior Court.

CHILDREN ONCE PUNY—NOW NO MOTHER'S CARE!

Before that wonderful little friend of school-children came to town, known as PARTOLA.—"The Doctor in Candy Form"—many boys and girls were puny, sickly, a great care and worry to mothers. They were constipated, never told mother, hence the prevalence of system poisoning, professionally known as Toxemia.

But now, mother uses this remedy the little ones like—PARTOLA, a mild, pleasant mint-flavored laxative and internal antiseptic—that keeps bowels regular, appetites sharpened, digestion vigorous and system free from the poisonous bacteria that cause the child to fail in health and studies.

PARTOLA is mothers' convenient, simple, economical likeable remedy for the entire family, now in millions of intelligent well-regulated homes. All good druggists sell regular box at 30c, double size 50c, family size $1.00.

American Balloon Expert Sets New Altitude Record

(International News Service)

SCOTT FIELD, BELLEVILLE, Ill., May 17.—Capt Hawthorne C. Gray, in his flight on May 4 last, established a new world's altitude free balloon record when he attained a height of 42,470 feet, according to the official record received here from the U. S. Bureau of Standards.

The previous altitude record of 39,500 feet was made by a German flyer, according to Lt. Col J. A. Paeglow, Commandant of Scott Field, who received the report from Washington today.

Commencement Plans At Plaingrove High

(Special To The News)

PLAINGROVE, Pa., May 17. — The final arrangements for commencement week have just been completed at Plaingrove High school. This year's Seniors may justly feel proud of the fact that they are the largest class to have graduated thus far in the history of the school, being ten in number (four boys and six girls).

First honors in the class went to Joyce Moors and second honors to Edna Sankey.

The class as a whole is a very promising group, with nearly all of them planning to matriculate in some higher school of learning this fall.

Their first play was a decided success, their second one is certain even to eclipse it, and as the winners of the Class B literary championship of the county they are the decipients of an enviable silver loving cup.

BACCALAUREATE

The baccalaureate sermon will be preached in the United Presbyterian church, May 22, by the Rev. Chester McCaskey of Mt. Pleasant church. We look forward with a great deal of anticipation to hearing Mr. McCaskey, who is a young man of exceptionally pleasing personality and power as a minister of the gospel.

CLASS NIGHT

Class Night will be held in the Presbyterian church, May 24, at eight-fifteen o'clock. The order of procedure will be as follows:

Salutatorian—Edna Sankey.
Historian—Margaret Montgomery.
Reading—Helen Patterson.
Prophecy—Agnes Brenneman.
Booster—Raymond Eppinger.
Knocker—Gladys Wynder.
Instrumental Duet—Agnes Brenneman and Helen Patterson.
Donors—Harry Sankey and Louis Guarnieri.
Class President—Kenneth McCommon.

COMMENCEMENT

Commencement Night will be held in the Presbyterian church, on May 25, at eight-fifteen o'clock.

It is with great pleasure that we announce our success in securing Dr. Homer B. Henderson to make the commencement address. As pastor of the First United Presbyterian church of Grove City, Pa., Dr. Henderson has proven his worth. He is in reality a spiritual dynamo, radiating health, life, and vision wherever he goes. There is nothing enigmatical about his philosophy of life—one merely has to see and hear the man to understand why he has such a far-reaching sphere of influence. Dr. Henderson's theme will be "Life's Compensations."

Prior to the main address of the evening will come the valedictorian speech by Joyce Moors. The concluding part of the program will be the presentation of diplomas by Raymond D. Walter, followed with the benediction by Rev. A. I. Dickinson.

Literary Program

The concluding literary program of the school for this year consisted of the following numbers:

Song—By the Club.
Reading—Gladys Wynder.
Newspaper—Agnes Moore.
Vocal Solo—Prof. Walter.
Recitation—Helen Houston.
Prophecy of Freshmen Class — Maxine Ray.
Vocal Solo—Helen Patterson.
Reading—Jessie Kildoo.
Piano Solo—Prof. Hill.

Plan To Attend C. E. Convention

About 200 Delegates To Be Present From Lawrence County —President Coolidge To Speak

A number of young people from Lawrence County Christian Endeavor Union are planning to attend the thirty-first International Christian Endeavor Society convention which convenes in Cleveland, July 2-7. It is expected that about two hundred delegates will be present from the city and county.

Without any exception the coming convention promises to be the best ever held by the Endeavorers. President Calvin Coolidge has been secured to speak on July 4. Dr. and Mrs. Francis Clark, founders of Christian Endeavor and Dr. Poling, president of the International Endeavor Union will be among the other outstanding speakers of the meeting.

On July 4, there will be a parade with approximately 30,000 young people in line from all over the world.

A number of the Societies from this city and County are planning to secure autos for to take the Endeavorers on this day. All Pennsylvania delegates will dress in red and white. For further information call Miss Joyce Wilson. The last day to register is on June 15.

Carlisle Firemen To Aid Borough

(International News Service)

CARLISLE, Pa., May 17.—The Carlisle borough fire department has agreed to protect the neighboring town of Boiling Springs from fire for a consideration of $80 a year.

Boiling Springs having no fire department purchased several hundred feet of fire hose, but apparently abandoned the idea of raising a volunteer fire company. The Carlisle borough council hearing of the situation offered the services of its organization and the agreement was reached.

Four Full Grown Beavers Trapped

(International News Service)

REEDSVILLE, Pa., May 17—Four full grown beavers, trapped in Seven Mountain near here have been sent to Hamafey, Clearfield county where they will be used for propagation purposes.

The animals were trapped in the region where a colony was liberated a decade ago.

Howard Wetzel of Bellevue also represented the local Y. M. C. A. at the conference.

Lawrence County Leads In State

Lawrence county stood along side of Beaver county in leading the counties of the state in the greatest production of oats to the acre during 1926 while Berks county produced the most oats.

Some of the other neighboring counties which led in certain lines of farming according to the Department of Agriculture are Washington which led in wool production and Allegheny which has the largest number of farms equipped with radio. Allegheny county also stood second among the counties in the production of peaches with 34,000 bushels while Franklin county led with 187,000 bushels. Bradford county led in the production of buckwheat.

Lancaster county made the biggest all round record for she led in the toal production of corn, wheat, tobacco and hay; in number of cattle on farms in number of chickens on farms and eggs produced and in number of farms having automobiles and tractors.

PULASKI NEWS

One of the most enjoyable family gatherings held here for some time was that at the home of Mr. and Mrs. Benjamin Garrett, when a surprise party was given in honor of the former's mother, Mrs. Emma Garrett's seventy-second birthday anniversary. Spring Tints

(Copyright 1927)

Gaily colored frocks this Spring! Underthings in soft shades to match. Tint them in ordinary water—**but with true dyes.** Dipping will do it—in ordinary cold water—but you must have real dye to get a smooth, perfectly even tone.

Diamond dye powder is fifteen cents at any drugstore; so why do half a job with something not half so effective? And when you want the tint to be permanent, just dip in boiling water instead of cold!

The druggist has color cards and simple directions for doing perfect dyeing of all sorts of material; silk or wool; linen, cotton goods; mixed goods, or any goods at all; and exquisite tinting of dainty things. Or, send for a marvelous book of suggestions in full colors. Ask for Color Craft! Address DIAMOND DYES, Dept. N31, Burlington, Vermont.

FOR Acid Stomach

PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

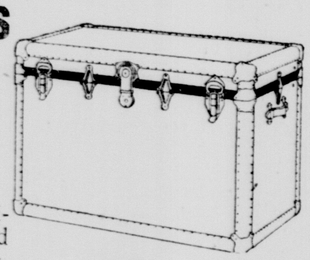

Better Than Soda

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

Try a 25c Bottle

Insist upon "Phillips". Twenty-five cent and fifty cent bottles, any drug store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

Nothing is Just as Good as the "Red Star"

Many competitive salesmen pay us compliments when they say that their Oil Stove is as good as the "Red Star." They recognize the leadership of the "Red Star" and can only hope that their's is "nearly as good." Remember the "Red Star" gives you the best results known to oil stoves—it has no wicks, no rings, no odor, no fumes and as the oil is NOT UNDER PRESSURE there is no danger.

Bernstein Speaks Monday Night

Makes Address At Dinner Session Of Ellwood Chamber Of Commerce

COMPLIMENTS CITY ON ITS PROGRESS

ELLWOOD CITY, May 17.—The monthly session-dinner of the Chamber of Commerce was addressed last evening by Lester Bernstein of Pittsburgh.

Mr. Bernstein is the manager of the commercial development department of the Philadelphia Company of Pittsburgh. As a member of the president's staff of that company Mr. Bernstein has charge of the commercial and chamber work for the affiliated companies of the Pittsburgh Railways, the Duquesne Power Company and others.

He said, in part, that the modern city community was established about a center of labor market, source and supply. He described in detail the history of community from the time of the cave dwellers. Homes started as a place of refuge to the humans from first the animals, then from the barbarians from the north. As time went on these sections became the centers of population for massed protection from the enemy, tilling the soil about the community until the community spread to the surrounding territory.

Mr. Bernstein stated that this country was established by those desiring liberty and a chance to develop community life. Thus small communities in the various parts of the east coast were established until the present large cities have resulted. However, the growth of these places is the result of transportation facilities, whether by water, pike or rail. Thus New York, at the outlet of the Hudson, was built. So with Boston, Chicago, San Francisco and New Orleans.

In these centers of business and community development the need of a business clearing house was seen, so that Chamber of Commerce has been established. This organization has ever been recognized as the clearing house for business men for the community. Mr. Bernstein complimented the Ellwood Chamber of Commerce on the size of its membership. He stated that in proportion to the membership Ellwood was very fortunate in having such a fine number of the business men active and interested in the community development of Ellwood City. He also stated that if no other cause was supported during the season than the Community Chest of over $50,000 that the Ellwood citizens had something to be proud of.

Randall B. Luke introduced the speaker after the chamber had been led in several songs by Rev. Stevenson. The ladies of the Presbyterian church served a very delicious dinner. Thomas Daley, president of the chamber, presided, with over 50 of the members present.

Womans Club Party At Elks Club Tonight

ELLWOOD CITY, May 17.—All indications point to a successful bridge and five hundred party, to be held tonight in the Elks Club. Arrangements are in the most capable hands of Mrs. Thos. A. Wilson, who with her entertainment committee are sparing no pains to make this affair the most successful of the current year.

The proceeds of this party will be turned over to the fund for the new Woman's Club Building. It is the duty of each member to turn out tonight and bring all your friends.

All Schools In City Except Senior High Will Take Part In Festival

ELLWOOD CITY, Pa., May 17—On Thursday, May 19, all schools of this city with the exception of the Senior high school will take part in a May Day festival to be held on the High school field in the rear of the Lincoln Junior high. Miss Opal S. Burnham will have charge, assisted by all of the health teachers in the city.

Some 2,500 school children will do their best to make this a scene of beauty to the music of the Ellwood City school band under the direction of O. E. Bartel director of music in the schools.

This event of Thursday will be the first of its kind in the city. It will likely be made an annual event.

Following is the program as it will be carried out May 19:

Entrance and Crowning of May Queen.

First Grade Minuet.

Third Grade Wand Drill.

Fourth Grade Dance. Hop Mother Annika.

Fifth and Sixth Grade Calisthenics drill. Boys.

Fifth and Sixth grade dance. Dance of the Wood Nymphs by the girls.

Seventh and Eighth Grade Calisthenics Drill. Boys.

Second Grade May Pole dance.

Presbyterian Church Notes

ELLWOOD CITY, May 17.—The Women's Presbyterial Society for Missions went "over the top" last year in regard to their quota. This is quite a record. Very few presbyteries achieve that record. Shenango presbytery set a high record last year and we are hoping the record year just closed is still higher. The two high spots in the records of the women's societies were the taking on the support of a missionary by the Sharon society and the payment of $200 to needy church boards by Ellwood First Society.

At the meeting of the officers and teachers of the Sunday school last Wednesday evening, June 15 was appointed to be the date of the Sunday school picnic.

The Margaret E. Pugh class will hold its monthly tureen supper and business meeting Wednesday evening, the 18th, at six o'clock.

Please note change in time for prayer meeting, 7:45 p. m. Bring some verse to prayer meeting which has been of real help to you in recent days.

The Geneva Glee Club concert Thursday night in the church auditorium.

Slippery Rock Church Program

ELLWOOD CITY, May 17.—Wednesday evening prayer meeting will be held at the home of Mr. and Mrs. Charles Wilson, at Wilson stop.

Friday night has been chosen as Young People's rally night and all old and new members are especially invited to attend.

The meeting will be held at the church, with Cecil Harper acting as leader.

HOSPITAL NOTES

ELLWOOD CITY, May 17.—Admitted to hospital: Mrs. Carl Davidson, Reed Wallhausen of the New Castle-Ellwood road. Discharged: Dominick Vumvuca.

Wins Ernestina

Thomas A. Robinson, of Alma, Mich., has won the hand of Senorita Ernestina Calles, daughter of the President of Mexico.

Fortnight Club Is Entertained

ELLWOOD CITY, May 17.—Mrs. Harry Harris of Wayne avenue proved herself a charming hostess to the members of the Fortnight Club, their husbands and a few guests on Monday evening. There were five tables of bridge in play and the score favors were awarded to Mrs. Myron Gelbach and Edwin French respectively.

The house was beautifully decorated with rose-colored tulips, and at a late hour a delicious lunch was served by the hostess, assisted by Mrs. Joseph Bowater, Mrs. Myron Gelbach and Mrs. Frederick Krauth. The club members present were: Mr. and Mrs. Joseph Bowater, Mr. and Mrs. Carl Zeigler, Mr. and Mrs. Myron Gelbach, Mr. and Mrs. Howard Jones, Mr. and Mrs. Clifford Jones, Mr. and Mrs. Edwin French, Mr. and Mrs. Ralph Conner, Mr. and Mrs. Walter Whittaker and Mr. and Mrs. Frederick Krauth were special guests. The club will meet again in two weeks.

School Pupils Aid Chest Drive

ELLWOOD CITY, May 17.—Monday was community chest drive day in the public schools and the pupils all responded in a noble manner.

Several rooms in the West End building went over the top, as did six or eight rooms in the Lincoln building.

North Side and Circle, not to be outdone came through with flying colors.

Everything looks rosy for the big drive, and things are all lined for a real start on Monday morning.

Williard Deemer of Wurtemburg is suffering with quinsy.

Elizabeth Hertzog Buried Monday

ELLWOOD CITY, May 17.—Funeral services for Elizabeth, 16-year-old daughter of Mr. and Mrs. Stanley Hertzog were held from the family home in Sixth street, Tuesday afternoon, at 2 o'clock.

Services were conducted by the Rev. J. E. McDonald of Youngstown, Ohio, a former pastor of the United Presbyterian church of this city.

The home was literally filled with beautiful flowers, bearing mute testimony to the love and esteem this young girl had commanded during her too brief sojourn among us. The pallbearers were members of her public school and Sunday school classes and were there to show a last tribute to their little friend. The girls acting in this capacity were: Grace Wright, Beryl Boots, Francis Kennedy, Marie McKim, Agnes Wilson and Jean Davis. During the last rites at the cemetery seven other young friends carried a gorgeous blanket of flowers, which when lowered covered the grave completely. These girls were Ruth Kimes, Grace Harbison, Agnes Crowe, Mary Elna Tillia, June Christy, Mary McDonald and Dorothy Young.

ENJOY HIKE.

ELLWOOD CITY, Pa. May 17.—Members of the True Blue and Golden Star classes of the Wurtemburg United Presbyterian Sabbath school enjoyed a hike on Saturday afternoon which was shortened on account of the inclemency of the weather, but failed to dampen the spirits of the girls. A delectable supper was enjoyed by the following girls and their teachers: Evelyn Wimer, Ada Granam, Julia Badger, Christina Dolter, Ida White, Fay Gallaher and Mary Erma White.

ENTERTAINS FRIENDS

ELLWOOD CITY, May 17.—Carl Zeigler Junior, of Wayne avenue, was a proud host on the occasion of his ninth birthday.

He invited nine of his small friends to accompany him to the theater and then returned to his home, where his motther very thoughtfully provided a wonderful birthday lunch.

The small boys are all wishing their own mothers would follow Mrs. Zeigler's lead.

RIGHT HAND INJURED

ELLWOOD CITY, May 17.—Thomas Jones of the Pittsburgh Circle had his right hand badly injured Monday. Mr. Jones is employed by the Babcock & Willcock Company or Morado. In some manner Mr. Jones caught his hand in a sand mixing machine, and while the injury is not thought to be serious, he will be unable to use the member for quite a while.

LEAVES FOR DENVER

ELLWOOD CITY, May 17.—Mrs. Annie Hallstein, who has been making an extended visit with her sister, Mrs. C. M. Iseman, will leave for Denver, Colo, tonight.

Mrs. Hallstein has been called to Denver owing to the illness of her daughter, Mrs. H. W. Hartman. The many Ellwood friends of Mrs. Hartman are hoping for her speedy recovery.

LEGION SMOKER

ELLWOOD CITY, May 17.—The members of the local American Legion are all looking forward to a big time tonight at their smoker and stag party, to be held in the new Sons of Italy hall. From all reports there are to be some real speakers and some real stunts pulled off. All members are asked to be present.

ELLWOOD PERSONALS

Harry Young of Wayne avenue spent Saturday in Portersville.

Mrs. W. W. Seidel and Mrs. H. F. Seidel are in Pittsburgh today.

Mr. and Mrs. S. W. Hoffman of Altoona, Pa., are here for a short visit at the home of their son, Glen Hoffman, of the new Simon building.

Among those who attended the performance of the Vagabond King in Pittsburgh were Miss Lillian Russell, Mrs. Glen Hoffman, Miss Dorothy Gemmil and Louis Nickum.

Mr. and Mrs. Thomas Barnes accompanied by Frank Barnes and wife, motored to Pittsburgh for the week-end.

Mr. and Mrs. S. Wilkoff spent Sunday with the Sidney Wilkoffs of the Morrowfield apartments, Pittsburgh.

Fred Butcher, accompanied by his wife and small son, drove here from Arkon, O., to spent a few days with old friends. They were accompanied home today by Mrs. Butcher's parents, Mr. and Mrs. Thomas McCarthy.

Joseph Bowater and family will move into their new home on South Ellwood Heights Wednesday. Albert Graham, who has purchased the Bowater house on Wayne avenue, will move his family there in the near future.

Mr. and Mrs. Fred Melzer motored to Youngstown today.

Miss Mary Blocher and Mrs. Oscar Dahl will motor to New Castle this evening for a visit.

Oscar Dahl was a business visitor in Koppel yesterday.

Carl Zeigler of Wayne avenue is making a business trip to Pittsburgh today.

"Never before such wonderful lawn and flowers"

"FOR the past three years we have used Vigoro with the greatest satisfaction," says W. C. Belman, Vice-President of the First National Bank, Hammond, Ind.

"Never before have we been able to grow such wonderful lawn and flowers—without the usual trouble from weeds. In our judgment, Vigoro is the best plantfood on the market."

Vigoro users everywhere are enjoying this kind of success. You can get the same sure results, too—*this season*—with this unusual plantfood.

Odorless, easy to apply!

Vigoro is not to be compared with any other plantfood you have ever known. No unpleasant odor! So *clean* you can scatter it by hand or sift from your kitchen colander!

This ideal plantfood is the result of years of experiment by Swift & Company experts.

CLEAN! *Sown by hand* like grass seed ODORLESS!

It provides a balanced ration throughout the season. Gives a quick, vigorous start—more velvety green grass, better flowers, crisp succulent vegetables!

Not at all costly!

A 100 lb. sack of Vigoro supplies enough concentrated nourishment for a flourishing garden or lawn 50 x 50 to 50 x 100 feet! Only two to four lbs. per 100 square feet! Full directions for applying are given in "The Home Beautiful" booklet in every bag.

Your nearest Vigoro dealer will be glad to tell you more about this wonderful plantfood—answer any questions. He will help you estimate the exact amount you need.

Well put up in paper lined, cotton bags—convenient 100, 50 and 25 lb. sizes for economical application. Also tins of 5 lb. size. Today, at your dealer's.

Get more for your money!

Q. Why does growing its own rubber enable the United States Rubber Company to give you more for your tire money?

A. Because—better rubber builds better tires.

Many years ago the makers of United States Tires started their search for finer, cleaner rubber in larger quantities.

The only way to get it was to grow *the rubber themselves.*

Today the United States Rubber Company's Plantations contain 10,000,000 pedigreed rubber trees, yielding large quantities of the finest kind of rubber latex.

They provide an ever-increasing source of supply for the finest rubber that can be produced.

The tender bran of the oat adds *extra value* to this nourishing food

Children are gloriously well when their special needs are met with simple foods. A bowl of Quick Mother's Oats with milk is one of the best of the "growth foods" now considered so important.

Often cereals lose much of their natural value through being too highly refined. Children especially need the tender bran as it is found in Quick Mother's Oats, and that is one reason child health specialists approve it so highly.

A bowl of Quick Mother's Oats and milk is rich, too, in vitamins and minerals indispensable for sound, normal growth. And a cup of each a day supplies 23% of the tissue-building protein a growing child must have.

And how children love the natural whole-grain flavor!

For many years the careful millers of Quick Mother's Oats have studied ways of milling to keep this flavor—and to make a fine, even meal that cooks up always the way you like it—smooth and even!

So that mothers who realize the importance of oatmeal as a "growth food" find in this 50-year-old brand a quality they can always trust.

Two kinds—the kind you have always known or Quick (cooks in 2½ to 5 minutes). Both with coupons interchangeable with Aunt Jemima coupons, for lovely linens, curtains, jewelry.

Reject Bids On Heating System For City Building

Bids Are Discussed At Length By Councilmen At Days Session

Councilmen today rejected all bids for the installation of a new heating in the City building and Fire department station and ordered checks which had accompanied the bids returned to bidders.

The rejection was caused by the threat of one bidder to ask the court to restrain the city from awarding the bid to the Stevenson company and chiefly because specifications were found faulty.

Solicitor White told solons that the city could present the award to the Stevenson company as in his opinion he is not an officer but an employe of the city.

According to law "no member of council or other officer of the City hall have anything to do with the awarding of a contract"—and Stevenson did not, councilmen declared.

White further said that a contract could be entered into with the company but should someone carry the matter to court he said "it is voidable under law" if a court decides he is an "officer".

Attorney Mark Rabinovitz, legal representative of the Stevenson company, addressed council and called their attention to an act of law called the "Fictitious Name Act".

He described how in large cities, in years gone by members of bodies, interested secretly in companies had helped to throw contracts to their firms.

Attorney Rabinovitz told council that in the present case there had been nothing of this sort attempted here and there had been no attempt to claim Stevenson is not a member of the firm.

He said the firm is operated by Harold Stevenson and that his father does not have anything to do with the supervision of work and that to throw out the Stevenson bid would be a shame.

Rabinovitz said that to reject all of the bids would be different whereupon Councilman Louis Genkinger declared that the bids asked, taken and checked had been done in a clean, above-board manner.

Councilman Tyler declared he could see nothing wrong but declared Solicitor White had informed him that the attorney for another contractor intended to contest the award, if it was granted.

Councilman Burns delved into specifications and characterized them as lame. After one hour's discussion of the plans Councilman Tyler's bid to reject all bids was adopted unanimously.

A new set of plans and specifications will be prepared and before being adopted will be studied by members of council. It is planned to install the system this summer.

Orchestral music is coming more and more into its own. All over the country school systems are asking for teachers trained in instrumental work. New Castle cannot afford to be behind. There are those among us with sufficient vision and faith to predict a time when our city will be a leader of the state in that line of school music. Will the musical culture become great enough in this community to produce a Beethoven, a Handel, a Mendellsshon? Who can say? All things are possible if one can but look beyond the trivial affairs of this immediate day and catch the glow of things beyond the horizon.

Probably nothing of great note will ever be accomplished by orchestral organizations in the first six grades of the public schools. But after all, is that the purpose or the aim of the grade school orchestra? Is not the big thing, the arousing of interest, the stimulation of the child's natural love for music, the fostering of ambition, and the discovering of talent? The grade orchestra is but the registration hall for the Junior High School orchestra, and the Junior High School is but the preparatory school for the Senior High School group. Think of the possibilities of a Senior High School Orchestra, which is fed yearly by schools in which the children have received regular and efficient orchestral training. To be true our present Senior Orchestra is doing splendid work and has now fame in numerous contests, but each year finds the force broken by graduation, and a new material must constantly be added.

The question has frequently been asked, "How in the world can a teacher stand to listen to the scratching and sawing and tooting and braying of a grade school orchestra?" The answer lies in the fact that the situation is so soul inspiring and exciting that there is no time to consult ones nerves on the subject of prostration. Anyone who can spend an hour working with a group of cheerfully earnest little players and not feel a genuine thrill of delight, cannot expect to get much out of this old world. True, the baritone may play every other note in the wrong key, and the violinist may forget that an "e flat" is not to be played on an open string, but they are trying, bless their young hearts, and think of the great satisfaction that will come when he has corrected his mistakes and mastered the difficulty.

The initial appearance of the Croton, Thaddeus School Orchestra, was at the recent pageant given by Thaddeus Stevens school at Benjamin Franklin Junior high school.

Their second performance will be at the Operetta "A Midsummer's Day," which is being given by the Croton school in the Ben Franklin auditorium on Friday evening, May 20 at eight o'clock.

These same children will also appear on the Memorial service to be held at the Capitol Theatre, May 30.

Great credit is due these little folks for their unfaltering faithfulness to their organization, for their cheerful cooperation, and for their willingness to work diligently even through long rehearsals. Many of the rehearsals have had to be held on Saturday, and these boys and girls have gladly sacrificed half of their weekly holiday for the privilege of playing with their comrades under directors.

GO OVER PLANS FOR NEW JUNIOR HIGH SCHOOL

School Board To Meet Again On Wednesday Night To Consider Plans

Members of the New Castle School Board are finding little time for anything but school duties during the past few weeks. Instead of the usual one meeting a month they are holding an average of two a week, the first one of this week being held Monday night, with another on Wednesday night.

Monday night little routine business was taken up, nearly all of the time being taken up with plans for the new Junior high school. Architect A. L. Thayer was present and went over the plans for each floor and at the suggestion of the members made a number of changes.

It is hoped that Wednesday night will close the inspection of plans and specifications, and that in the near future bids for the work can be asked.

D. S. WILLIAMS IS REMOVED TO HOME FROM HOSPITAL

David S. Williams of East Lincoln avenue, who has been confined in the Shenango Valley hospital as the result of injuries, sustained about six weeks ago while at work in the tin mill, has sufficiently recovered and was removed to his home, Monday afternoon.

Mr. Williams had his back painfully hurt when the tongs with which he was working broke causing him to fall backward with terrible force.

Although he is still quite weak he is able to get around in his home with the use of crutches.

Pigeon Adopts Home On Farm

Registered Pigeon Makes Itself At Home At Place On Youngstown Road

Mrs. Thomas Young of Youngstown road reports that a pigeon bearing a band with a number came to her place the end of last week and apparently expects to make that its home.

The band bears the following numerals and letters, "26NS2317" The bird apparently liked the place, for when first seen it associated with the chickens in the yard and has been feeding with them ever since.

Other pigeons come into the neighboring field every day, but this stray bird does not seem to want to have anything to do with the "common herd".

Mrs. Young says that the pigeon seems to be of the ordinary type, of the ordinary color of grey with darker bronze-like spots.

Anyone owning the pigeon may get in touch with Mrs. Young by telephone by calling 4267J.

PETERS ADVENTURES IN ANIMAL LAND

By Florence Smith Vincent

OFF TO FIND THE FIELD MICE

Now, from the doorway of the Chipmunk's burrow to the meadow where the field mice lived was no distance at all. It seemed to the Boy that Fox had scarcely started upon his way when he came to a halt.

"Woof, woof!" barked he softly. "Here we are. Now, Boy, slip down upon my back, will you, and stand perfectly still until I call you. Should the field mice hear you jumping about so near their home they might take fright and run away before I could give them warning of the Weasel. Then, when all was once more quiet, back they would creep and be at home when Weasel called, and that is exactly what I do not want to happen—not that I care so very much what becomes of the Field Mice, but I do want to take revenge upon that long-nosed waster of my time."

The Boy did as he was told, and slid down upon the ground, but just as his steed was about to step away he caught hold of the fellow's fore foot.

"Hey! Wait a moment", he said. "Where do the Field Mice live, anyway? I don't see a thing that looks like a house."

Fox shook off his hand with an impatient jerk.

"Well, where are you looking? In the air or up in that old beech tree, I suppose! Field Mice live on the ground, stupid, and just on purpose, so that you shall not see their house, they find or scoop out a shallow hollow in the earth, lay a floor of grass and paper, the walls with leaves and for a roof they mat together bits of grass and leaves.

"But all this is not telling me where their house is", complained the Boy. "Here's a clump of something that looks as though it might once have been grass, although it is all dried up now; only the stubby roots are left, and there is another, and over yonder another just like it."

"You are not telling me anything", barked Fox crossly. "That is just the trouble. When I was over by the burrow I was sure I could go straight to the Field Mice home with my eyes shut. Now that I am in the meadow, I find I have lost my bearings. I am not sure by which of all the clumps is the house for which I am looking and I will have to search for it myself.

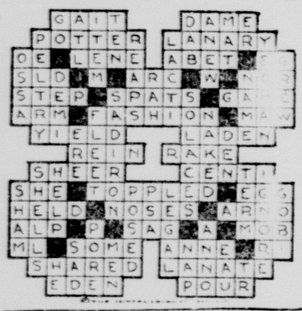

"You needn't be rude, Fox", began the Boy, but Fox paid no further attention to him, setting out at once to find the Field Mice. "Sniff!" "Sniff!" Closely he examined one clump of dried grass after another, but was without success, and Peter, who was watching him, could see that he was getting more out of temper at every failure.

"I don't see why I can't help Fox search", said the Boy to himself. "Wouldn't it be funny if I should find the Field Mice house first!"

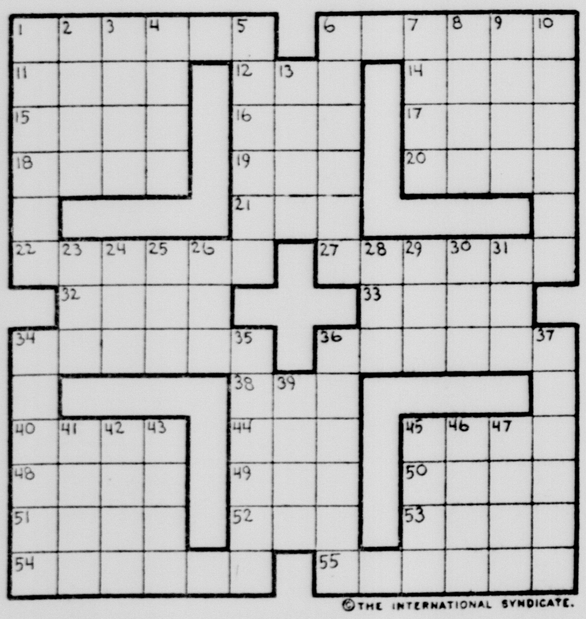

Next: "The Wrong House but the Right Family."

MEIS TO MANAGE NEW CASTLE O. & P. TEAM

Elected Monday By Directors

Former Toledo Pitcher To Be In Complete Charge Of New Castle Team

PLAY MASSILLON HERE WEDNESDAY

By "BUGS" WALTHER.

When the New Castle team of the O. and P. league trots out on Centennial field Wednesday afternoon to meet the Massillon Agathons, they will have a brand new pilot at the wheel. At a meeting of the board of directors of the team held on Monday night Carl "Molly" Meis was elected as manager of the team.

Meis is a first class pitcher, he is an old head at the game and has plenty of baseball experience. Meis will have complete charge of the team, and if there is any "firing" to be done in the future, the new leader will have the say so, and if there is any new players selected Meis will have the last word as to their selection.

The newly elected manager will appoint his own field captain. Just who Meis will pick out to captain the team on the field is not known as yet and in fact it is doubtless if Meis himself has given the matter much thought, but nevertheless the ball club has been left in his care and the new policy will go into effect with the game tomorow night.

Lineup Announced.

For the present at least the New Castle team will lineup as follows: Meis, Jamieson, Robert Flynn and Jack Flynn, pitchers; Art Bryan, catcher; Behanney at third; Maxim at short; Lawrence at second; and Swartz at first.

The outfield will contain Frank Weimer in left; Clem General in center and "Sanky" McCullough in right.

The Massillon Agathons will bring a first class ball club to New Castle tomorrow night. The Agathons defeated the Homestead Grays last week after the Grays had ridden rough-shod over 15 or 16 teams this year. On Sunday the Massillon crew downed the locals 6 to 0 in a game at Massillon. New Castle will endeavor to get back at the Agathons on Wednesday night.

It is likely that Meis the newly elected pilot will take the mound against the Ohioans with Bryan behind the bat.

The game tomorrow night will start at 6 o'clock daylight savings time.

Good Games On Tap Tonight In Twilight Loop

If Jupitor Pluvius will go elsewhere tonight and forget about the showers, the Twilight League will climb back into harness with four good games billed for 6:30 o'clock.

The South Hills team will journey to West Pittsburg to meet the Garlands. The Edenburg league leaders will appear at the Sampson street field to battle the Ryantown boys. The Hillsville-Lawrence Indies teams will play at the Cedar Street Field.

The Troop B. aggregation will clash with the National Radiator Colored Stars at Coaltown.

SORDS POINTS

"Cap" Can Hardly "Weight" For Coast Track Meet

By NORMAN E. BROWN

The Pacific Coast is noted for its wide open spaces, movie studios, climate, swimming marathons and weight men.

The national collegiate and intercollegiate track and field records read like a Pacific Coast blue-book when the weight events are reached.

Take the 16-pound shot put for instance.

Glenn Hartranft won the event in the intercollegiate meet in 1922. The following year he was out of school and therefore could not compete and Ralph Hills of Princeton won the event. In 1924 Hartranft returned to competition and came out of the I. C. meet victor once more. Hartranft's mark in 1922 was 48 ft., 6 1-8 inches, a record. His mark in 1924 was 49 ft., 5 7-8 inches, breaking his own mark. Hill's distance the intervening year was 47 ft., 8 3-4 inches. The latter nosed out the coast stars in 1925 with a heave of 49 ft., 9 5-8 inches, only to have Clarence "Bud" Houser of Southern California, toss the pill 49 ft., 11 3-4 inches the next year, another record.

Then in the discus.

Hartranft romped away with the honor in the intercollegiate in that event in 1922 by hurling the discus 149 ft., 1-8 inches, a new record. With Glen out of competition Bill Neufeld of California won it in 1923 with a mark of 138 ft., 11 1-2 inches. Hartranft announced his return the next year with a toss of 158 ft., 1 1-8 inches. The record was not allowed because of high winds, however. The next two years Bud Houser held up the reputation of the coast with heaves of 150 ft., 2 1-4 inches and 151 ft., 3 3-8 inches.

His toss in 1925 broke Hartranft's record and Bud's second victory broke his own record.

Two years ago Elmer Gerkin, now captain of the University of California team, finished fourth in the shotput in the intercollegiate meet and in the national games crept up to second place, behind Hartranft. Last year Gerkin finished second to Houser in the shot put and the discus. This year he is ready to step out and win one or both of those events, in the opinion of many coast critics. He is counted on to be one of the outstanding stars of the season's meets, including the first All-Pacific Coast track and field meet to be staged in Los Angeles June 3-4. It's the first year the meet has been opened to include all west coast institutions.

There's Real Rivalry

"Gimme Boys" And "Tin Can Brigade" To Play Benefit Game Friday

Between These Teams

Waters Threatens To Wind Boa Constrictor Around Dukes' Neck

BY ED. FRITZ

Folks, there's going to be a real ball game at Centennial Field, Friday when the colored boys of the Garbage Department play the Police force for the benefit of flood sufferers and the man who hasn't yet laid down his 'two bits' for a ducat to the worthy cause has not done so because he has been out of town. All paths will lead to Centennial Field where baseball with a B and Fun with an F will feature for several hours.

According to the respective captains, Howard Phillips of the garbage department and Jim, alias Sergeant Steiner of the "Please Gimme" force, there's considerable rivalry between the teams. Howard has had his two aces of spades, Johnny Waters and Midnight with teammates practicin' several days while the "Gimme boys" played an exhibition game against a pick-up outfit yesterday.

"I'se gwine to twist one ahround Mister Dukes neck an' dat boy'll think ah'm chokin' him wiff a boa constrictor coil" said Johnny Waters who is one of the best workers the city has ever had. "Ah suah will fan dem Flat-Feet an' ef I can't Midnight will," all of which means that some dazzling pitching is to be expected when Mistar Steiner opposes either Waters or Midnight.

There has been a sneaking suspicion that Phillips is "crossing up the 'Gimme Boys'"; in fact some members of the police department have reported the arrival in New Castle of some strange colored folk of male gender. They've been seen meeting Phillips near the incinerator plant and Patrolman Latera, member of the team and First ward night bluecoat has been ordered to "investigate."

"I'm not relating my plans to every man I meet because that would be parading my stuff before the umpires call "play ball" said Howard Phillips today as a gusto of wind almost sent his toupe flying into the Neshannock river. "I'm with 'My Boys' to win and the mayor has promised us a square deal. There'll be none of 'em locked up on the day the game is to be played."

"Crying out loud, you'd think that guy Phillips had real ball players the way he talks" said City Detective Creighton Logan who will break all records by paying his admission into the game. "I'm with the policemen and when they start they'll finish," whereupon he lighted his pipe with a borrowed match. Pete Hillers echoed similar sentiment.

Mayor Dunlap has decreed that all policemen must pay their way into the game which may and may not cause dissension among the team. He has also ordered Steiner, captain, to "put no one on the team who cannot play" and as a result Night Lieutenant Harper, considered too stout to run, may be given a chance to occupy the bench with his superior, Chief Dysart.

So far there has not been enough tickets to supply the demand. Two thousand have been sold. The police expect to sell that many more. They have already showed their heart is in the right place by selling $1,000 worth of tickets for the Mardi Gras tonight at the Cathedral, and they deserve lots of credit for their effort to help the Red Cross put over the campaign to raise $20,000.

The Lawn Tennis Association in England does not permit professionals in other sports to compete in amateur tennis tournaments. On the other hand, the British definition of professionalism in golf does not take into consideration a player's status in other sports. A notable instances is that of Billy Wells, the professional boxer, who has played in the amateur golf championship.

Church League Games Tonight

Two good games are billed in the New Castle Church League tonight, provided it doesn't rain, and chances are that it will. The games will start at 6:30 o'clock daylight savings time.

The First Christians will tangle with the Central Christians at the Colonial grounds, and the First Baptist boys will try conclusions with the First Methodist team at the Lehigh Field.

The games scheduled in the loop for Monday night were washed out. They will be played at a later date.

Gehrig Smashes Homer, Ties Babe

Yankee First Sacker Ties Ruth For Home Run Honors With Eighth Clout

MEUSEL STEALS HOME IN WEIRD PLAY

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, May 17.—Ty Cobb has a real rival in the art of base stealing today and the gent in question is none other than Bob Meusel, the languid and lanky outfielder in the New York Yankees. After stealing second in yesterday's game with Detroit, Meusel furnished a new wrinkle by stealing all the way home on one play.

With Meusel on second and Lazzeri on first, catcher Shea trapped the runners between bases. When the Detroit players finished throwing the ball around Meusel was in and Lazzeri was safe at first and manager Moriaty of the Tigers was calling for headache powders.

Lou Gehrig hit two donbles and his eighth homer, tying Babe Ruth for home run honors. The Babe, however, drove in two runs in the ninth and the Yanks registered their fifth straight triumph, 4 to 2. Pitcher Walkup was sent in to pitch to Ruth and when the beans were spilled Walkup walked out.

Ty Cobb hit his first homer of the season and Simmons got two of them as the Athletics nosed out the Browns, 10 to 8, in a ding dong battle. Ken Williams of the Browns collected four hits including a homer.

Ted Lyons chalked up his fifth victory as the White Sox trounced the Red Sox, 5 to 2. The pale hose scored all their runs in the second inning off Hal Wilse, who has accounted for half of Boston's eight victories.

In the National League the Cardinals regained second place by nosing out the Phillies, 2 to 1. Jesse Haines came right back after his beating by the Giants and shaded Alex Ferguson.

Max Carey bit the hands that once fed him by making four hits and stealing a base against Pittsburgh. Brooklyn won 9 to 5, pushing the Pirates back into third place.

The Reds, Giants, Cubs, Braves, Senators and Indians did not play.

Will Bring Cardinals Here

Pictured here is Robert "Bob" O'Farrell new manager of the St. Louis Cardinals, World's Champions who will appear in New Castle on Monday afternoon, May 23. The champions will play the New Castle team of the O. and P. league. O'Farrell succeeded Rogers Hornsby as manager when the famous "Rajah" was traded to the Giants.

World's Champions To Play New Castle Team Here Monday May 23

New Castle baseball fans will get a peek at the St. Louis Cardinals World's Champions here next Monday afternoon, when they meet the New Castle O. & P. League team in an exhibition game. The game is scheduled for Centennial Field at 4:30 o'clock daylight savings time.

The Cardinals with Rogers Hornsby at the helm appeared here two years ago and defeated the New Castle leaguers 5 to 4, in a good game. Joe Hartman now the property of Johnstown in the Middle-Atlantic League and Eddie Dyer since shipped by the Cards to the American Association were the opposing pitchers. The Cardinals were just a good ball club, when they appeared here two years ago, but today they are the World's Champions, having defeated the New York Yankees in the World's Series of last year.

The Cardinals will bring to New Castle their complete lineup including the famous Frankie Frisch, the Fordham flash and former Giant second baseman. Frisch joined the St. Louis club this year when Bradon traded Hornsby to the Giants for Ring and Frisch. Also Tommy Thevenow the sensational shortstop and Jim Bottomley the hard slugging first baseman will be with the Champions when they appear in New Castle.

Manager "Bob" O'Farrell has promised to have his first string players at New Castle for the exhibition game, which was scheduled as an off day for the Cardinals in the National League.

Grover Cleveland Alexander the veteran hurler obtained by the Cards from the Chicago Cubs will also appear here. It is not likely that O'Farrell will use the great Alexander on the mound, but nevertheless Alex will be in New Castle next Monday afternoon. Even at that O'Farrell may be prevailed to use Alexander for one or two innings in the game here.

Rain Plays Havoc With County Loop

Four Games Are Scheduled For Wednesday And Big Crowds Are Expected

UMPIRES NAMED FOR MID-WEEK CONTESTS

Wednesday comes only once a week but if Czar J. Pluv continues to spill his anger on Baseball Crowds, there'll not be that many contests a week as he certainly has played havoc with Lawrence County League teams which have been trying hard to get away to a flying start.

With four games billed and a sun making a threat to make each possible, the Czar of Raindom let loose with a deluge Saturday that stopped all the settoes except the P. R. R.-Ellwood City game which like the schedule the railroad has, went off as scheduled.

Wednesday the eight teams will try to get away again but there's only two or three things sure in life, they being death, taxes and tide and so no one can figure on the games until the sun shines. If it does, the league, as of yore, will furnish four good tilts.

Here's the schedule and the umpires:

Bessemer at Mahoningtown; McCormick and McCann.

Energy at Ellwood City, Diana and Kroesen.

Independents at Wampum, Parks and Patterson.

Coaltown at Croton, Hudson and McCarthy.

The first named arbiter will be umpire-in-chief and Evans of Mahoningtown will be held in reserve.

The race has started but few of the pitchers have yet reached their right form. However, after the first round, the players commenced hitting and fielding the ball and fans have witnessed several good games. Bessemer has proved quite a surprise and the Independents promise plenty of action to any team they play. Pat Boyle is rounding into shape for Ellwood, the flag-winners and Croton proposes to grab off a few victories. Coaltown is behind the team and it looks as though Wampum will cause trouble this year. Energy is likely to trip any of the teams while the Pennsylvania is rounding into form.

All of the games Wednesday will start at six o'clock and large crowds are anticipated.

Rocco Leaves For Cleveland To Meet Yarbo On May 25

Emmet Rocco, the Ellwood City heavyweight boxer accompanied by his manager Joe Cumo, left for Cleveland, O., on Monday afternoon. Rocco is scheduled to fight Battling Yarbo on May 25, in a semi-final bout to the Sid Terris-Billy Wallace battle.

While in Cleveland Rocco will train each day with Johnny Risko, heavyweight contender at the Danny Dunn stable. Risko no doubt will teach the Ellwood City boy a thing or two about the game. Risko several months ago fought a good battle against Gene Tunney the present heavyweight champion.

Pirates Lose To Brooklyn

Dodgers Get To Pirate Hurlers For Thirteen Hits

FORMER PIRATE GETS FOUR HITS

BROOKLYN, May 17.—Max Carey former Pirate showed lots of ability with the stick yesterday drawing a double and three singles and as a result of Brooklyn's 9-5 victory the Pirates have been toppled to third place. The Dodgers made enough runs in the first three innings to win the game but in the eighth the Pirates rallied and with three runs across the plate had the Brooklyn team worried but their rally was curtailed before real damage could be done.

The Pirates used three pitchers, Yde, Cvengros and Nichols and they were found for 13 hits while Jess Petty held the firing line for the Dodgers and was hit nine times. Graham, Meusel, Henline, Carey, Herman and Harris got doubles while P. Waner got a triple and Butler, third baseman for the Dodgers brought the fans to their feet with a home run. Yde went three innings while his relief, Cvengros was removed in place of Nichols.

Crowell May Join Three-Letter Men

West Middlesex Athlete At New Wilmington On Way To Distinction

(Special To The News)

NEW WILMINGTON, May 17.—If William Crowell of Sharon, can win a track letter at Westminster College this spring, he will have the unique distinction of having won three sports letters in his first year. There is every reason to believe that the former West Middlesex high star will "crash through" as he is running the quarter mile and is a star in the event. He failed to place in the dual meet with Carnegie Tech last Friday, but he was running with only a few days training.

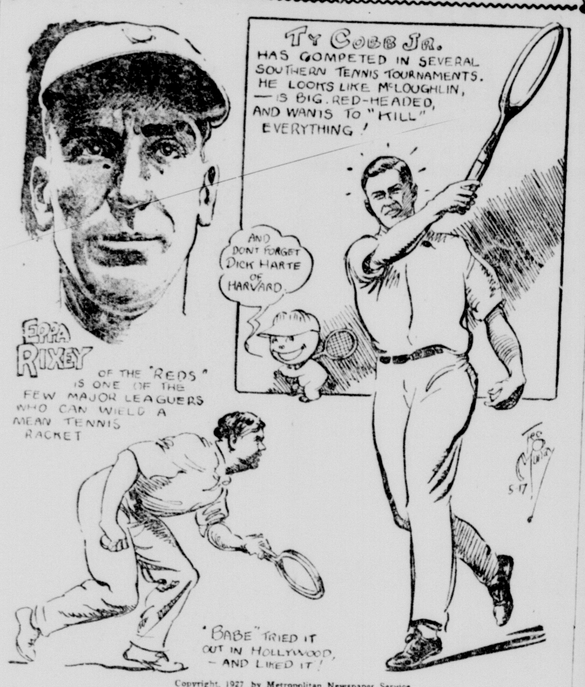

Harold Coles of Homestead and James McQuiston of Cochranton, are at present three letter-men as is Charles Ayres of Canansburg. "Chuck" came into Westminster sport light this year by winning regular positions on the varsity grid and basketball squads. He had previously won a letter in track.

During the last decade, four letter-men at Westminster have been few and far between. William Cleary of Erie, a graduate of the college last year, had the distinction. His awards were won in football, basketball, baseball and track. John Hetra of Farrell, another graduate with the class of 1926 had won three sport letters, having starred in basketball, baseball and track.

Since the abolishing of baseball, the chances of becoming a four sport man have been greatly diminished. It seems to be the run in college that if an athlete is proficient in tennis, he has little love for track and vice versa.

If Crowell can accomplish his third letter, he will deserve much commendation. He must win eight points during the season and three meets remain. Geneva will be met Saturday at New Wilmington.

Baseball And Tennis — By Feg Murray

Copyright, 1927 by Metropolitan Newspaper Service

FEG MURRAY SPORT CUT

Strange bedfellows, baseball and tennis. About all they have in common is that both are played with a bat and a ball on a smooth, level field, while the differences in the two games make them as far apart as the two poles. Yet various major league ball stars have tried their hands at the net game and liked it, and the greatest baseball player of all time has more than a passing interest in tennis because his son is a promising young player.

You who peruse the sports pages diligently each morning may have been struck, as I, by the coincidence in the two dispatches about the Cobbs, Senior and Junior, in the papers of Wednesday, March 30. Ty, the benevolent father, it seemed, had spoken harsh words to Umpire Frank Wilson in an exhibition game between the Boston Braves and the Philadelphia Athletics some days before, causing the hard-boiled arbiter to forfeit the game to Boston, and on March 29 Judge Landis announced that Cobb must pay a fine of $100. At Augusta, the same day, Ty Junior was playing in a tennis tournament, and, though beaten in the singles, put up a gallant fight. On March 30, the young Tyrus and his partner, Bill Deas, were eliminated from the doubles by Bill Tilden and Sandy Wiener, while George Lott of Chicago, himself a fine baseball player, was winning his quarter-final match in the singles.

Imagine the row that would have been caused if Ty Cobb, Jr. had hurled abusive language at the umpire in the tennis match! Jones Mersereau, the Judge Landis of the United States Lawn Tennis Association, would not have slapped a $100 fine on the red-headed youngster, for that would be a smack of professionalism, but he would certainly have barred the "second McLoughlin" from playing in future tournaments over which the association has control. Sam Hardy tells me that young Ty wants to kill every ball, and if he carries baseball ethics into tennis, he'll surely attempt mayhem on some of the near-sighted linesmen.

And say!—just imagine Ty Cobb, Senior adopting in baseball the tennis custom of throwing a point to your opponent when you are sure the umpire has erred in your favor! Don't make me laugh!

Feg Murray Says—

"A notable feat was accomplished by Miss Ella Cartwright when she leaped an altitude of 17 feet, 14 inches."—A New York illustrated weekly.

"He (Lloyd Waner) is 55 feet, 9 inches tall."—A Brooklyn newspaper.

These two, with "Sky-terriers," and Andy High of the Boston Braves, are the most prominent examples of the "Higher-ups" in sport.

Maloney Favored To Defeat Jack Sharkey

BY DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, May 17.—Although most of the visible money being chanced on the outcome probably could be concealed very effectually behind an English monocle, there were unmistakable signs today that New York intended to make Jimmy Maloney a favorite over Jack Sharkey for their heavyweight meeting on Thursday night. A favorite, according to Webster, is one who "is looked upon with special favor", but the greater definer wasn't thinking of Jimmy Maloney when he drafted this designation.

Maloney is the probable favorite only because the average addict dislikes James' fighting less than he does that of Sharkey. The man who wins possibly will be the man who will go on to a championship fight with Tunney, but somehow the customers have been gazing with idle abstraction at the far horizon.

Even artificial respiration hasn't altogether succeeded in reviving the patient locally, although the fact that Boston has bought its share of tickets has been duly broadcast. Perhaps the intervening 48 hours will see them rioting at the turnstiles, which is something that Sharkey's ability to talk a great contest and George Rickard's decision to give himself a dinner last night have failed to do.

Little Interest

As a matter of fantastic fact, the public's interest is not with this couple of earnest young men, who can fight, but with a rather elderly ex-champion who doesn't know whether he can or not. Maybe the announcement that Jack Dempsey's comeback will be against the Sharkey-Maloney winner will produce the desired effect, for apparently you must get Dempsey's name in there if you want to get the customers in, too.

The Maloney-Delaney fight, which turned out a million dollars worth of advertising and a million moments of boredom, also has had a psychological effect on the sale for Thursday's fight. The boys will want to be shown this time and the proposition of matching one man with only a fair punch against another with virtually none is not a particularly attractive one.

Still, the winner will be able to say with perfect truth that he has beaten every good man available up to and including the moment and, if that isn't enough to get him consideration, then it may be presumed that he just isn't due.

Much of this depends on the identity of the winner, however. If it is Maloney, the boys will go for him with a reasonable degree of enthusiasm. They suspect he can punch; the evidence is more or less circumstantial, but even a suspected punch is esteemed over bland innocence.

THE BRITISH DERBY AT EPSOM DOWNS WAS RUN IN A SNOWSTORM IN 1839. RIDSDALE'S BLOOMSBURY

AMATEUR NOTES

The South Side Stars defeated the Boro Tigers by a score of 8 to 6, in a game played on the Boro grounds on Monday night. Abromski featured the game with seven strikeouts. Budurack had a home run as a hitting feature. T. Ovos had a triple.

The Dewberry Gasolines last year established a fine record on the baseball field, by playing 42 games, winning 30, losing 3 and deadlocking in 3 games. The Gasolines played some of the best junior teams in Lawrence County last year. The team is going good this season and they expect to establish an even better record.

The South Side Midgets defeated the South Side Cubs three out of three games in a recent series. The scores were: 19-9, 18-5, and 7-6. In the first and second game the Midgets knocked the ball to all corners of the lot. In the third game it looked bad for the Midgets until they rallied and scored seven runs in one inning. The Midgets would like to book games with any team under 16 years of age in the county. For games call 2960-M and ask for Herman Reider between 4 and 6 o'clock.

The Clifton Flats Juniors, a newly organized baseball team would like to arrange games with all fast junior teams in the county. For games call 1324-R and ask for Harold. The business manager of the South Side Pirates is asked to get in touch with Hiler, for a game on Saturday. The Clifton Flats Juniors hold a victory over the South Siders.

HERE AND THERE IN SPORTS' LAND

By ED. FRITZ

A Boston pitcher, Wiltse, was knocked unconscious at Chicago yesterday when a line drive by Left Fielder Falk of the Chicago team struck him in the second inning. The unfortunate pitcher was carried from the field in an unconcious condition.

Yale and grid rivals have entered into an agreement by which no scouting of teams will feature 1927 football games. This move was adopted, it is said, to support the non-scouting principle. After making the bare announcement Professor Nettleton said no further comment would be forthcoming on the matter.

Cecil Leitch, famous English golf champion, was struck by lightning while playing in Ireland yesterday and the electrical flashes unnerved the contestants. Virginia Wilson of America was the only Yankee entry to survive the first day, she winning from Enid Wilson, 6-4. Miss Leitch was not seriously hurt.

Harry T. McHenry, former Waynesburg athlete, who for the last three seasons has coached athletics at Canonsburg has resigned to accept a position at McKees Rocks high school. One of his feats while at Canonsburg was a defeat of Washington high in football.

As the night of the Maloney-Sharkey fight draws near Jim Maloney is found to be a six to five choice over his fellow Bostonian. Both heavyweights are reported in dispatches from New York to be in the best of condition. Tex Rickard expects the gate to be at least $350,000.

ANSWERED:
three vital questions you have asked about used car allowances

1 "What is my present car worth?"

Answer: Your used car has only one fundamental basis of value: that is what the dealer who accepts it in trade can get for it in the used car market.

2 "Why should dealers in different makes of cars offer me allowances that differ materially?"

Answer: Your used car has seemingly different values because competitive dealers are bidding to sell you a new car.

3 "Is it true that the largest allowance offered means the best deal for me?"

Answer: The largest allowance is not necessarily the best deal for you. Sometimes it is; sometimes it is not. An excessive allowance may mean that you are paying an excessive price for the new car in comparison with its real value.

FIRST judge the merits of the new car in comparison with its price, including all delivery and finance charges. *Then* weigh any difference in allowance offered on your used car. Remember that after all you are making a *purchase,* not a *sale.*

SPORTS DONE BROWN

By NORMAN E. BROWN

Sport activities abroad these days are of unusual interest to us on this side of the Atlantic.

Abe Mitchell, who comes as near to being Walter Hagen's nemesis as any one, serves notice to the American team picked to wrest the Ryder cup from the British this summer by his brilliant play in the Daily Mail tournament at Wentworth, equivalent to the pro golf championship of the Isles. He turned in a card of 294 for the four rounds. He topped off his play in the final round with a 25-yard putt. Try one like than in your backyard.

* * *

The other day when Detroit honored Ty Cobb—a homecoming hero in the garb of an enemy—baseball celebrities and notables of other lines gathered about him on the field before the game to pay him honor.

Sitting unseen under the lean-to roof of the Athletics' dugout was Connie Mack.

Connie never goes onto the field. It would take a fire or tornado to pry Connie loose from the bench. That's his way. No desire for the limelight. No curiosity, if you will, to see how the thing works. He gets his thrills out of baseball as played on the field.

It was Connie, nevertheless, who placed Cobb in a setting suitable for his comeback.

* * *

When waxing enthusiastic over the showing of Ty Cobb, as any fan is bound to do, don't overlook the fact that as Ty Cobb rips in the baseball firmament wide open in his old familiar style Cornelius McGillicuddy is getting back in cold cash the fortune he offered Cobb for a year's work. And not only that but the "gate" the Georgia Peach is drawing now will give Connie a fair return on the gross expenditure of last winter—for Joe Boley, Eddie Collins, Pete Brannom, Zack Wheat et al. What could be sweeter than that?

* * *

Speaking of baseball, Flint Rhem Cardinal pitcher, and Chic Hafey, outfielder, have a novel way of winning ball games, which, if carried out religiously, would solve most any club's problem. Rhem, assigned to pitch against the Dodgers, held them to two hits. Hafey, carrying out his end of the plan, hit two homers for Mr. Rhem and teammates, assuring them of the consequent two runs. It's a whale of an idea, if it works.

* * *

The afternoon Tony Lazzeri played his twenty-second game of the season with the New York Yankees he stepped out of his uniform with the proud distinction of not having made an error up to that time at least. He was the only second sacker in the league boasting such a record.

NATURALIZATION COURT

Naturalization court for final papers will be held at the court house on next Monday and Tuesday. There is a list of about 250 applicants, who took the recent preliminary tests.

HIGH LIGHTS OF HISTORY

Registered U. S. Patent Office.

The Georgia Railroad Raid (Part Two). by J. CARROLL MANSFIELD

THE TWENTY-FOUR MEN TO ACCOMPANY ANDREWS, THE FEDERAL SPY, ON HIS SECRET BRIDGE-BURNING EXPEDITION INTO GEORGIA WERE TAKEN FROM THE 2ND, 21ST AND 33RD OHIO REGIMENTS OF GENERAL SILL'S BRIGADE AND WERE AT FIRST IGNORANT OF THE NATURE OF THE HAZARDOUS UNDERTAKING THAT WAS BEFORE THEM.

AT SUNDOWN ON APRIL 7, 1862, THE MEMBERS OF THE RAIDING PARTY, DRESSED IN ROUGH CIVILIAN GARB AND ARMED ONLY WITH REVOLVERS, MET IN THE WOODS NEAR SHELBYVILLE, WHERE ANDREWS OUTLINED HIS DESPERATE PLAN AND GAVE THEM THEIR ORDERS.

LEAVING SHELBYVILLE, THE RAIDERS, TRAVELING AFOOT OVER ROADS SODDEN WITH RAIN, PASSED THE CONFEDERATE LINES ON VARIOUS PRETEXTS AND MADE THEIR WAY TO CHATTANOOGA, WHERE THEY WERE TO BOARD SOUTHBOUND TRAINS FOR MARIETTA AS ORDINARY PASSENGERS.

AS THE RAIN CONTINUED, ANDREWS BELIEVED THAT THE MUDDY ROADS WOULD DELAY THE ADVANCE OF MITCHEL'S ARMY UPON HUNTSVILLE, AND PASSED THE WORD AMONG HIS FOLLOWERS THAT THE ATTEMPT WOULD BE POSTPONED UNTIL SATURDAY, APRIL 12.

Series O, consisting of bonds from 81 to 90, inclusive, shall become due and payable August 1st, 1946;

Series P, consisting of bonds from 91 to 100, inclusive, shall become due and payable August 1st, 1947.

SECTION 4. That for the payment of interest and taxes on the said bonds and for the liquidation of the principal thereof at maturity there shall be, and there is hereby assessed and levied annually upon the assessed valuation of all the taxable property within the said City, a tax sufficient in amount to produce the following sums, or so much thereof as may be necessary for the fiscal year commencing on the first Monday of January in each of the years below designated, viz:

For the year 1928, Eight Thousand One Hundred Twenty-five ($8,125.00) Dollars;

For the year 1929, Eight Thousand One Hundred Twenty-five ($8,125.00) Dollars;

For the year 1930, Nine Thousand One Hundred Twenty-five ($9,125.00) Dollars;

For the year 1931, Nine Thousand One Hundred Twenty-five ($9,125.00) Dollars;

For the year 1932, Nine Thousand Four Hundred Ten ($9,410.00) Dollars;

For the year 1933, Nine Thousand One Hundred Sixty-five ($9,165.00) Dollars;

For the year 1934, Eight Thousand Nine Hundred Twenty ($8,920.00) Dollars;

For the year 1935, Eight Thousand Six Hundred Seventy-five ($8,675.00) Dollars;

For the year 1936, Eight Thousand Four Hundred Thirty ($8,430.00) Dollars;

For the year 1937, Eight Thousand One Hundred Eighty-five ($8,185.00) Dollars;

For the year 1938, Seven Thousand Nine Hundred Forty ($7,940.00) Dollars;

For the year 1939, Seven Thousand Six Hundred Ninety-five ($7,695.00) Dollars;

For the year 1940, Seven Thousand Four Hundred Fifty ($7,450.00) Dollars;

For the year 1941, Seven Thousand Two Hundred Five ($7,205.00) Dollars;

For the year 1942, Six Thousand Nine Hundred Sixty ($6,960.00) Dollars;

For the year 1944, Eleven Thousand Four Hundred Seventy ($11,470.00) Dollars;

For the year 1945, Ten Thousand Nine Hundred Eighty ($10,980.00) Dollars;

For the year 1946, Ten Thousand Four Hundred Ninety ($10,490.00) Dollars;

SECTION 5. The said bonds shall be known as the "City of New Castle Improvement Bonds, Series of 1927," and shall be signed by the Mayor, attested by the City Clerk under the Corporate Seal of the said City, and shall be countersigned by the Superintendent of Accounts and Finance and by the City Controller. The interest coupons attached to the said bonds shall be signed by the City Clerk, the Superintendent of Accounts and Finance, and the City Controller, by and under their own or facsimiles signatures.

SECTION 6. The money borrowed under the provisions of this ordinance shall be and the same is hereby divided and appropriated to the following uses and purposes, to-wit: (1) The sum of Fifty Thousand ($50,000.00) Dollars to be used and is hereby appropriated for constructing and re-constructing the garbage incinerating plant in the said City; and (2) the Sum of Fifty Thousand ($50,000.00) Dollars shall be used and is hereby appropriated for improving certain street and constructing certain sewers in the said City.

SECTION 7. Registration of any of the said bonds issued under the provisions of this ordinance may be made in the manner provided by law in the office of the Superintendent of Accounts and Finance of said City, but the right to register said bonds shall be confined to the principal debt thereon. In case any bond is registered and thereafter transferred by the registered holder thereof to any other person or persons, the said transferee, or his assigns, may transfer or re-transfer the same to bearer and thus again restore its negotiability, provided written notice of such transfer is given to the Superintendent of Accounts and Finance of the said City.

SECTION 8. The Council of the said City shall annually fix the tax rate or millage upon the valuation and assessment for that year, so that the said rate of millage will produce the revenue and taxes hereinabove set forth in Section 4.

I, Cordelia Zeigler Jones, City Clerk, do hereby certify that the above and foregoing ordinance has been regularly introduced and is now pending in the council of the city of New Castle, Pa. In witness whereof, I hereunto set my hand and affix the seal of the city, this 10th day of May, 1927.

Special Services At Nazarene Church

Will Begin Wednesday Evening Under The Auspices Of The Young People's Society

The First Church of the Nazarene, corner W. Falls and N. Beaver streets, will begin special revival meetings Wednesday evening, May 18, 1927, under the auspices of the Young People's Society. These meetings will continue each night during the week and two services on Sunday until May 29th.

Rev. O. L. Benedum, pastor-evangelist of East Liverpool, O., is the special engaged speaker for this series of meetings. Rev. Benedum is a very successful pastor of the largest Nazarene church on the Pittsburgh District. His church numbers some over 400 members, 1,000 in his Sunday school and over 300 young people. His wife, Mrs. Benedum, will sing special solos and assist in the services with her husband.

A great Rally will be held on Friday night, May 20, Charles M. Fillmore, author and composer of that old hymn, "Tell Mother I'll Be There," will sing this piece together with others and also speak. Virgil C. Finnell of the No-Tobacco League of America will also lecture, illustrating his talk with hand-colored stereopticon slides.

Each night, the services will begin fifteen minutes later than the usual time. Every night service in this church for the summer months will start 8:15 p. m. instead of 7:30.

N. Y. STOCKS

(International News Service)

NEW YORK, May 17.—Sharp recoveries in the railroad stocks, with moderate recoveries in the industrials and motors, but further declines in the oil stocks, marked the course of the early trading in the stock market today. A slight decline in the aggregate of brokers' borrowings, in a period marked by rising prices in the speculative leaders, helped to strengthen the technical position of the market.

The Nickel Plate railroad shares and a few standard dividend payers, led a moderate rally in the first period, Nickel Plate sold up about 4 points at 220½, while Atchison, Chesapeake and Ohio, New York Central, Western Maryland and Kansas City Southern advanced 1 to 3 points. Hocking Valley had a rapid turnover in the odd-lot section.

Industrial reports were generally favorable. Westinghouse Electric Company reported sales for the year ended March, 1927, at the largest in its history, and $20,000,000 in excess of the previous high record figure. American Petroleum Institute showed a considerable falling off in crude oil production, while steel mill operations were shown to have held steadily. Call money renewals 4½ per cent.

Make Change In Program Tonight

At noon today it was announced that the motion picture show scheduled for the charity ball and mardi gras for this evening in the Scottish Rite Cathedral had been cancelled, owing to the impossibility of securing a motion picture projection machine.

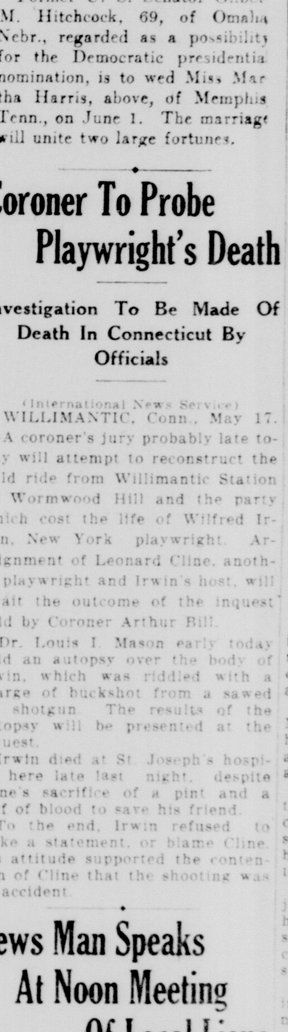

Instead of a picture show the committee in charge has arranged for a variety show on the stage of the auditorium, to start at 8:30. The Senior High school orchestra will present a group of numbers for the opening, the Tin City quartet will sing, members of the quartet will present solos, the Where Do You Worka John boys will present their numbers and a group of aesthetic dancers will appear in a group of interpretative dances.

The program promises to be one of merit and no charge will be made for admission. The general admission ticket is the open sesame to the concert.

Coroner To Probe Playwright's Death

Investigation To Be Made Of Death In Connecticut By Officials

(International News Service)

WILLIMANTIC, Conn., May 17.—A coroner's jury probably late today will attempt to reconstruct the wild ride from Willimantic Station to Wormwood Hill and the party which cost the life of Wilfred Irwin, New York playwright. Arraignment of Leonard Cline, another playwright and Irwin's host, will await the outcome of the inquest held by Coroner Arthur Bill.

Dr. Louis I. Mason early today held an autopsy over the body of Irwin, which was riddled with a charge of buckshot from a sawed off shotgun. The results of the autopsy will be presented at the inquest.

Irwin died at St. Joseph's hospital here late last night, despite Cline's sacrifice of a pint and a half of blood to save his friend.

To the end, Irwin refused to make a statement, or blame Cline. His attitude supported the contention of Cline that the shooting was an accident.

News Man Speaks At Noon Meeting Of Local Lions

Frederic A. Kimball of Lindenstein-Kimball, Inc., of New York, addressed the members of the Lions Club at their regular week-day luncheon meeting on Tuesday, May 17, at the Elks Club. Mr. Kimball told how the national representatives handled the advertising business from the time the campaign originated until the space was used in the different media. The members listened attentively and enjoyed the address.

The club invited the members of the Roberson-Smith Players at the Capitol theater to be the guests of the club on Tuesday noon, May 24, at their regular meeting.

Two new members were reported at the meeting, W. W. McCombs of Mahoning Trust Company and M. R. Short of the New Castle Dry Goods Company.

Four Men Shot In Pool Room At Altoona, Penna.

(International News Service)

ALTOONA, Pa., May 17.—Shot mysteriously while in a local pool-room, four men were in Altoona hospital today, two in a critical condition, while police sought their assailant in vain.

Shots from a revolver were fired through the poolroom door by the mysterious assailant. Peter Mangini, 31, was wounded in the chest, John Cannella, wounded in the abdomen; Roy Emes, shot in right hand and knee, and William Kirstner, wounded in right foot.

Police were without clues to the identity of the man who

At Convention Of Diocese Of Erie In Titusville, Pa.

Will Make Effort To Bring Next Conference To New Castle

Annual convention of the Diocese of Erie convening at Titusville, Pa., this afternoon and continuing in session this evening and Wednesday will be attended by the following from Trinity church of this city. Harry K. Gregory, chancellor of the diocese; Charles P. Byers, Francis E. Sowersby, Charles E. Hyle, Robert M. Garland, and Howard P. Meehan.

The two latter are alternates, taking the places of Thomas W. Dickey and William B. Howe who are unable to attend this year.

The rector of the local church, the Rev. Philip C. Pearson, speaking for the delegation is to invite the convention to New Castle for its meeting next May.

Veterans Plan For Celebration

Start Preliminary Plans For Celebration Of Fourth At Cascade Park

A regular meeting of Corporal Harry L. McBride Post, No. 522, Veterans of Foreign Wars, was held last night, with Commander George F. Runkle presiding. After the transaction of routine business matters in regard to Memorial Day and the buddy poppy sale on May 28 were considered.

The post also voted $10 to the Mississippi flood fund and this has been turned over to the Lawrence county chapter of the American Red Cross.

Plans for the ex-service men's celebration to be held at Cascade Park July 4 under the auspices of the Veterans of Foreign Wars, were also discussed. It is to be for all ex-service men of eastern Ohio and western Pennsylvania. Indications are that it will prove one of the big ex-service men's events of the summer season.

At the close of the business meeting a social time was enjoyed and lunch was served. The meeting was held in the Veterans of Foreign Wars home, 329 Neshannock avenue.

He isn't himself today

Ever fuss and fume when baby is fretful, fidgety, whiney and restless? Sometimes doesn't this happen when there's no fever, no cold, and you're certain the food is all right? If baby could talk, he'd tell you he just can't stand the itchy, scratchy wool underwear.

He needs and wants Duofold—the two layer underwear: one containing wool, one of cotton. Warm wool outside where it can't touch tender skin. All soft, downy cotton next to the skin—for comfort. Buy Duofold garments in our Infants' Department.

New Castle Tire Company Opens For Business

New Castle's newest auto tire store has been opened to the public at the corner of North Jefferson and North streets, with a large line of Miller tires, which will be the principle line carried. B. O. Bodkin, the owner of the store, says that he is buying all his tires in carload quantities, getting all new and fresh stock and getting the advantage of quantity buying.

Besides the Miller "Geared to the Road" tire the New Castle Tire Company, as the new store is named will handle the Rellim tire, made by Miller, and priced lower than the regular brands.

Mt. Jackson High To Present Operetta

An operetta "Hearts and Blossoms" will be given by the Mt. Jackson high school on Wednesday evening, May 18, at the Mt. Jackson high school auditorium.

The operetta is being arranged by the students of the school under the direction of Prof. W. H. McCullough, who has charge of the music of the school. Several of the teachers have assisted him in the preparation of the play.

The scene of the play is laid at a fashionable summer resort in America and the students have been trained to present the play in a very entertaining way, it is reported.

Choir Practice Wednesday Night

R. E. Johns states that again this week it will be found necessary to hold choir practice of the First Christian church on Wednesday evening at 9 o'clock instead of Thursday evening as has been the custom.

NO DEVELOPMENTS IN SAFE ROBBERY

At police headquarters, it was stated today that there had been no new developments in the safe blowing job of Sunday at the Brown and Hamilton company store. The work of burning open the strong box of the safe which resisted the efforts of the safe blowers is progressing satisfactorily.

Death Penalty For Bandit Slayer Will Be Asked In Court

Prosecution To Ask Death Penalty For Paul Jawarski In Pittsburgh Trial

(International News Service)

PITTSBURGH, Pa., May 17. — Ready to demand the death penalty for the slaying of a payroll guard, Assistant District Attorney A. T. Parks resumed the prosecution of Paul Jawarski, confessed bandit, at the second day of the trial today.

A jury was selected with little difficulty, the state being careful to ascertain that none of the jurors opposed capital punishment. It is composed of seven men and five women.

Jawarski, already serving a sentence of 30 to 60 years for his part in the bombing of a pay car of the Pittsburgh Terminal Coal Corporation near Coverdale, was in court, flanked on each side by a deputy sheriff.

The bandit is on trial for the murder of I. L. Gump, paymaster for the Pittsburgh Terminal Coal Corporation, who was slain in a robbery near the Mollenauer Mine two years ago. The district attorney's office claims it has Jawarski's confession that he took part in the robbery.

Soon after his arrest in the Coverdale robbery, Jawarski turned informer, hoping to escape trial for the Gump murder by "squealing" on other members of his gang, known as the "flatheads," but the district attorney would not promise him immunity.
